

UNITED STATES GOVERNMENT WILL TAKE POSSESSION OF MEXICAN CUSTOM HOUSES AT TAMPICO AND VERA CRUZ---OPPOSITION TO WILSON'S RESOLUTION IN SENATE DELAYS FINAL ACTION---HOUSE PASSES RESOLUTION BY VOTE OF 337 TO 37

WHILE AMERICAN NAVY WILL BLOCK MEXICO OFF FROM COMMERCE WITH U. S. IT WILL NOT INTERFERE WITH FOREIGN VESSELS

Joint Resolution as Passed by the House Declares President Wilson Is Justified In Use of Armed Forces of U. S. In En- forcing Demands Against Huerta—Much Opposition to Phraseology of the Resolution Develops in the Senate.

Washington, April 21.—Tuesday—Action by the army and navy of the United States to force Huerta to salute the flag was held up early today through opposition in the senate in the form of the joint resolution approving President Wilson's purposes as it passed the house last night. A recess of the senate was taken at 12:28 a. m., until noon today.

The president, while stating in his message to congress that he had full constitutional authority to act, is waiting for congress to express its approval before ordering Tampico and Vera Cruz to be seized and other steps taken looking to reparation for the arrest of American bluejackets at Tampico.

In a spectacular mid-night session the senate discussed the house resolution briefly. Senators objected to individualizing Huerta and a substitute resolution was agreed upon by the foreign relations committee giving the president broad authority to deal with indignities offered the United States in Mexico "in view of the situation as presented by the president in his message."

President Wilson had retired early but Secretary Tumulty, Secretary Garrison, Postmaster General Burleson, Vice-president Marshall, acting Chairman Shively and other administration leaders conferred on the substitute resolution. Senator Lodge presented a substitute for the preamble of the resolution reported by the committee which he will seek to have adopted tomorrow. It set forth:

"That the state of unrest, violence and anarchy which exists in Mexico, the numerous unchecked and unpunished murders of American citizens and the spoliation of their property in that country, the impossibility of securing protection or redress by diplomatic methods in the absence of lawful or effective authority, the inability of Mexico to discharge its international obligations, the unprovoked insults and indignities inflicted upon the flag and the uniform of the United States by the armed forces in occupation of large parts of Mexico territory have become intolerable.

"That the self-respect and dignity of the United States and the duty to protect its citizens and its international rights require that such a course be followed in Mexico by our government as to compel respect and observance of its rights."

Will Take Custom Houses.

Washington, April 20.—In forty-eight hours, possibly less, the United States government will have taken possession of the Mexican custom houses at Tampico and Vera Cruz.

Detailed plans for landing of marines at these two important coast towns are completed at a conference between President Wilson, Secretaries Bryan, Garrison and Daniels, Major General Wood and Rear-Admirals Fiske and Blue and John Lind.

"No orders to the army and navy will be issued tonight," was the announcement made after the conference, action temporarily being deferred until congress acts on the joint resolution approving the president's purpose of using the armed forces of the United States to enforce its demands against Huerta growing out of the arrest of American bluejackets. The resolution passed the house tonight by a vote of 337 to 37 after a spirited debate.

For several hours it was considered by the senate foreign relations committee with prospect of an all night session of the senate or a recess until early tomorrow. The house adjourned until ten o'clock tomorrow and President Wilson, worn out by the day's work, retired after hearing that the house had adopted the resolution.

Persons who were in touch with the president said the steps which would be taken by the United States "short of war" were of a nature which would not require formal notification to the powers in the same sense that a declaration of blockade or other preliminaries to war. Foreign governments will be kept informed of developments, however.

The debate in the house brought out the fact that while the American navy probably would block Mexico off from commerce with the United States it would not interfere with the passage to and from of foreign vessels, though cargoes discharged on the shore might be held at the custom houses if they were occupied by American forces.

Resolution Passed by House.

The joint resolution passed by the house and which was before the senate at a late hour tonight read as follows:

"A joint resolution justifying the employment of the armed forces of the United States in enforcing certain demands against Victoriano Huerta. Resolved by the senate and house of representatives in congress assembled that the president is justified in the employment of the armed forces of the United States to enforce the demands upon Victoriano Huerta for unequivocal amendments to the government of the United States for affronts and indignities committed against this government by General Huerta and his representatives."

During the evening there were informal conferences of Democrats and Republicans and opposition to the phraseology of the resolution was apparent. New York senators, among them a few Democrats, objected to singling out General Huerta as an individual and wanted to amend the resolution to direct it against the de facto government in Mexico City. Others wanted to make the resolution broad enough to cover Mexico generally.

Developments in the Mexican situation have been coming thick and fast, especially on the east coast, where the rebels devastated part of the Tampico oil well properties and the federal arrested United States marines, causing a demand from Admiral Mayo that the federal salute the American flag. The illustration shows a view of the harbor front at Vera Cruz, off which the American and foreign warships are centered, and one of Villa's supply trains moving from Torreon toward Saltillo.

tion the calendar was passed over quickly and Senator Shively presented the new resolution as a substitute for the measure passed by the house.

Senator Lippitt of Rhode Island, immediately objected. Senator Lodge urged that the objection be withdrawn and the Rhode Island senator finally consented, reserving the right to object later.

The resolution was read while senate leaders conferred over an agreement for a recess.

London Papers' Comment.

London, April 21.—According to The Standard the large commercial interests in Great Britain believe that the American action will tend to strengthen British finance in Mexico.

The Standard learns that the action of the United States government has the full acquiescence of the British government and that any international complications are extremely unlikely.

The Times in an editorial on the Mexican crisis says this morning: "The crisis has come in a form, which, as sincere friends of the American people, we could well have wished different. Their justification for forcible interference in Mexican affairs is far stronger than the particular pretext upon which the President decided to abandon his policy of watchful waiting."

The Daily Mail says: "There can be no mistaking the British attitude. It is one of admiration for the tolerance and self control with which President Wilson has employed all the resources of diplomacy to avert the crisis; of unstinted sympathy with the American people in the difficult and laborious undertaking which lies ahead of them and of absolute confidence in the success of the American arms by land and sea."

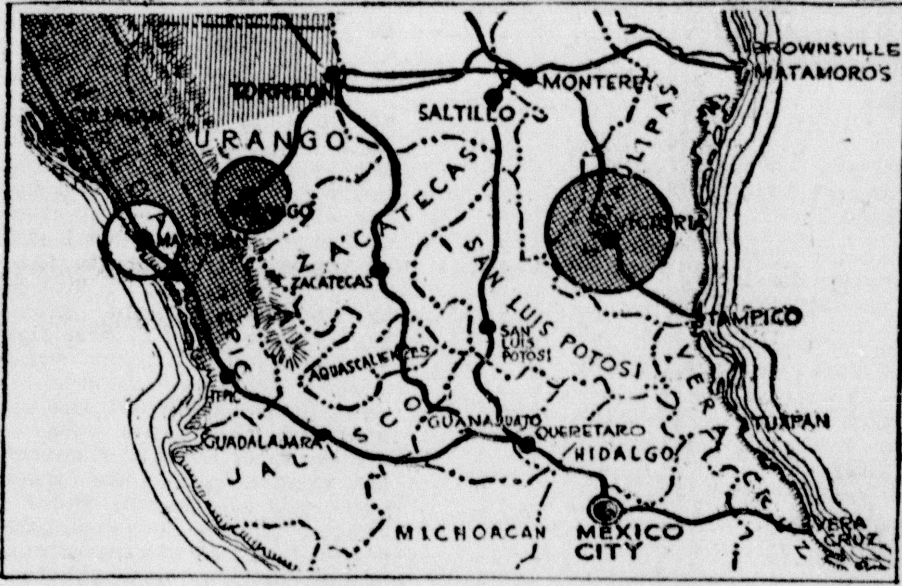

"Intervention has been thrust upon the Americans and they may be sure of the good will of the whole English speaking world in facing an unsought task."

The Daily News says: "It is only fair to President Wilson to recognize that he resorted to direct action only when the maladroit impudence of the dictator left him no alternative. But the fact that it has unwillingly been taken in his hands does not lessen the danger of the new weapon."

AWARDED HIGHEST HONORS.

Washington, April 20.—Rear-Admiral Robert E. Peary, U. S. N., retired, the arctic explorer today was notified that the geographical society of France had decided to award him its grand gold medal, the highest honor it can give.

MAP OF THE MEXICAN WAR ZONE

The illustration shows a map of the territory which is now the scene of greatest military activity in Mexico. The part marked by straight lines and squares is rebel territory; the white is controlled by the Mexican Dictator and foe of President Wilson, General Huerta. The warships of the United States navy have been ordered to concentrate on Tampico and Vera Cruz as their first objective. The government will take possession of the custom houses at these two ports.

BULLETINS ON MEXICAN SITUATION

Badger Prepares Plan of Campaign

On Board The U. S. S. Arkansas At Sea By Wireless, via Key West, April 20.—With the port of Tampico not far off and the knowledge that President Huerta has refused to accede to the demand of the United States government Rear-Admiral Charles J. Badger, commander-in-chief of the Atlantic fleet and the members of his staff were busy today preparing a tentative plan of campaign. They gave special attention to the details of a possible landing.

The crews of the battle ships practiced with small arms and at sighting big guns.

Aided by the favorable current and with a smooth sea, the officers of the warship expect to be within easy distance of Tampico early Wednesday.

Prepare Illinois National Guard for Call

Springfield, Ill., April 20.—The office of the Adjutant General today received many inquiries relative to the organization of provisional volunteer companies for service in Mexico. Adjutant General Dickson and staff bent all efforts toward preparation of the Illinois National Guard commands for such calls as may come from Washington through Governor Dunne.

Locomotive Engineers Offer Their Services

Chicago, April 20.—An offer of locomotive engineers to man trains in Mexico was telegraphed today to President Wilson and to the secretary of war from temporary headquarters here of the Brotherhood of Locomotive Engineers.

Students Recruit Three Full Companies

Chicago, April 20.—Three full companies of volunteer soldiers were recruited among the students of the law and medical departments of Loyola University today by Captain B. J. Balmer, professor in the university. The students began drill at once and will volunteer their services if there should be a call for men.

Huerta Offers Guarantee of Safety

Mexico City, April 20.—General Huerta offers all guarantee to foreigners, Americans included, who may remain in Mexico and he will improve this opportunity to show the world that his government and Mexico is moral and civilized.

This statement by President Huerta was dictated to The Associated Press today.

Urge Foreigners to Leave Country

Juarez, Mex., April 20.—The full text of President Wilson's message to congress was translated here this afternoon and transmitted to General Carranza at Chihuahua.

Five hundred messages were transmitted through the telegraph office here today or await transmission to foreigners residing in Mexico, urging them to leave the country.

Two Rebel Chieftains Meet

Chihuahua, Mex., April 20.—With many fateful questions dealing with the revolution and foreign affairs before them, General Venustiano Carranza and General Francisco Villa met formally here today.

No announcement of the proceedings of the conference was made except that it was harmonious. It was understood on high authority, however, that it was determined to prosecute the revolution regardless of the estrangement between Washington and the City of Mexico so long as rebel territory is not invaded or threatened.

Issues Provisional Orders for Militia

Sacramento, Cal., April 20.—Provisional orders for the transportation and concentration of California's militia strength numbering approximately 4,600 officers and men in Sacramento, Los Angeles and San Francisco, have been sent out to commanding officers by Adjutant General E. A. Forbes.

Mildly Anti-American Circulars Appear

Mexico City, April 20.—Circulars, mildly anti-American, appeared in the streets this afternoon appealing to the patriotism of Mexicans. There was no outward signs of antagonism to Americans, however, on the part of Mexicans.

As a precautionary measure a special guard of twelve police was installed in the American embassy tonight.

States Three Regiments Are Ready

Lexington, Ky., April 20.—Brigadier General Robert Williams of the Kentucky state militia here today stated that three regiments of state troops were ready now to take the field.

Battleships Will Sail Thursday

Boston, April 20.—The Battleships Virginia, Nebraska and Georgia of the third division of the Atlantic fleet which received orders today to leave Boston for Tampico will be ready to sail on the twenty-third, said Rear-Admiral Coffman, the commandant today.

Declares Country Should Support Wilson

New York, April 20.—"Whether President Wilson's decision with regard to Mexico is wise or not, the country should support him," said former Speaker of the House Cannon who arrived here today from Bermuda. "The president is entirely competent to act. Congress is entirely competent to act. Whether his course has been a failure or not, whether his present decision is wise or not, I believe that congress should now support him. And whether his decision is wise or not, I hold that the country should support him and will support him. For the country is not a divided one, but united."

Report that Mexican Students Are Assailed

Washington, April 20.—Senor Aligara, charge of the Mexican embassy here was informed tonight by a telegram from Mexican vice-consul at Indianapolis that eleven Mexican students at the University of Notre Dame at Notre Dame, Ind., were thrown into the river there and badly treated by American students in the institution. The consul informed the charge that he would take the matter up with the president of the university.

Soldiers Patrol Mexican Section of City

El Paso, Tex., April 20.—"Little Chihuahua" as the Mexican section of this city is known and where sixty per cent of the inhabitants of the city reside is being patrolled by United States cavalrymen and infantrymen tonight.

This and other precautionary measures were determined upon this afternoon at a conference between Mayor Kelly and Col. C. A. P. Hatfield, commanding the troops at Fort Bliss.

At the army post the cavalrymen were ordered to sleep with boots and saddles at their sides. (Continued on page 6.)

House.

Met at noon.

Arranged a joint session with the senate at 3 p. m., to hear President Wilson's address on the Mexican situation.

The McGillicuddy workmen's compensation bill was ordered favorably reported by the judiciary committee.

Several bills were considered under a unanimous consent.

Foreign affairs committee arranged for a meeting immediately after President Wilson's address.

Passed resolution approving President Wilson's proposed policy toward Mexico by a vote of 337 to 37.

Recessed at 9:30 until 10:30 p. m. Adjourned at 10:30 p. m., until 10 a. m., Tuesday.

Washington, April 20.—Prompt organization of a volunteer army for service in Mexico or in any other crisis would be provided for in a house bill passed today by the senate with amendments. Sending of the measure to conference was delayed by a motion by Senator Reed to reconsider the vote but senate leaders said the motion probably would be disposed of tomorrow.

The bill would revise the law under which a volunteer force was organized for the Spanish-American war in 1898. Its authors claim a volunteer force could be raised more quickly under the existing law; that it would prevent the payment of bounties, would do away with a short term of enlistment by making the term of volunteers the same as those in the regular army; would procure the necessary number of men at the beginning of the war for a long period, thus making drafting unnecessary and would decrease the pension list after the war. Under the proposed law the militia of each state would be subject to call for service as a part of the regular army. The organization would be taken over bodily with their officers.

ECONOMY POLICY KILLS

PLAN FOR BETTERMENT. New York, April 20.—A plan providing in general for the betterment of different conditions among employers and more specifically for a periodic statement of wages was rejected at a stockholders' meeting of the United States steel corporation in Hoboken today.

The plan which had been under consideration by a special committee for several months was disapproved on account of the corporation's policy of economy. Judge E. H. Gary, chairman of the board stated that the plan would involve an annual expenditure of \$40,000.

SPECIAL CHARTER AND GENERAL LAW—EXPERIENCE OF OTHER CITIES

In the discussion over the advisability of a change to the general school law in Jacksonville the question has several times been asked by the fair-minded: “What has been the result in other cities?” It is not enough to say that “much harm could not be done.” The question is: “Will good result?” Following are a few items from the experience of other cities.

Miss Caroline Grote, a woman of wide educational experience in her address on Saturday evening said: “I taught in Augusta in the 90's, going there shortly after the change from special charter to the general school law. I saw none of the disastrous results that have been predicted. There was no disturbance, but certain great improvements, and a general and gradual betterment in school conditions. Miss Grote contrasted the conditions in Macomb where she has been now for eight years with that in a number of cities now operating to the disadvantage of the former. Macomb she said is still under special charter and the mayor appoints the school board as was the original provision in your own charter. We have now a reasonably good board but there never has been a time in eight years when I have not felt that Macomb would be better under the general law.

Most emphatic of all was Miss Grote's testimony concerning Pittsfield school conditions which she has known intimately under both the special charter and the general law. When the change to the general law took place as she reports there was no ‘set-back’ and no ‘jar in conditions.’ There was no wholesale dismissal of teachers—“Bless you!”—the lady added. “Good teachers are no so easy to get. Does anyone imagine that any large number of a teaching force would be turned off for a whim? Good teachers are an asset and need have no fear.” Continuing she said: “There have been no special examinations by the board, and indeed the new certifying plan, which goes into operation in July, will effectually settle that. It provides that teachers must hold certificates either from the state or the county superintendent and calls for special examinations by the board of education of cities of 50,000 or over—a provision that will not touch Jacksonville for some years to come.”

As Miss Grote was a teacher in Pittsfield and later county superintendent of Pike county, she said that commendation of the schools might savor of a self-compliment, but that she expressed the general opinion of the public when she said that the condition of the schools was greatly improved, and that a great impetus was given to educational progress. Miss Cooley, now a teacher at the school for the Blind in Jacksonville, and for some time a member of the board of education in Pittsfield,

the general law are independent of all outside influence” is the testimony of S. E. Raines of that city. J. G. Moore, superintendent of schools of Streator, writes in favor of the general law. “While he criticizes the number of members on the board as being too large, he says on the other hand, that ‘all the schools of the state working together under an general law, can mass their forces most effectively for better laws as needs arise.’

Cairo is under the general law. The testimony of H. Clendenin, superintendent of schools is that “The present system is decidedly good.” He gives the following points in its favor: “(1) It prevents the joining of city politics to the schools; (2) is more representative and more democratic; (3) gives the people the general advantage of all amendments to the general law, and (4) is progressive. “In my opinion there are no points in favor of the special charter these days.”—“Egypt” as it proves, is not so far behind after all.

Danville has operated under the general law for many years. It has a population of 33,000, nearly twice that of Jacksonville, and has a board of only 6 members and a president. A prominent citizen gives the opinion that the present school system is “far better than under a special charter.” In answer to a letter of inquiry from the secretary of the Woman's Civic League, Gilbert Randle, superintendent of schools, endorses this opinion, and in further discussing the question, he says: “Whether the general law or the special charter is the better, depends very largely upon the charter. I know something of the provisions of the Jacksonville charter and I feel that the general law from every standpoint is immeasurably to be preferred. Under the general law members of the Board of Education are elected from the district at large and not from wards or from geographical divisions of the district. The ward system is a curse to any district. I have taught under two special charters. In one of these I felt that the charter was little less than a positive curse to the school interest of the community, yet political influences always prevented the organization of that district, under the general law. The best governed large city of this country, so far as their school affairs are concerned are St. Louis and Boston, in each of which the members of the Board of Education are chosen at large. Consequently the very best people in the community are glad to serve the district and the entire board is concerned with the welfare of the schools of all the district. Under the general law the school board is entirely independent of the mayor or city council. This is greatly to be desired.”

Quincy went under the general law in 1893. “More satisfactory in every way,” is the testimony of the present Superintendent of Schools. R. J. Christy, president of the Board of Education, writes: “Since Quincy has been under the general law the boards have been more satisfactory. Politics has had no part in the selection of members and better men and women are being induced to stand for the position. Our schools have made notable progress, the spirit of the board is better and the general co-operation of the citizens more manifest.”

Hon. George H. Wilson of Quincy, has this to add: “Previous to the change the members of the board were hand-picked by the city council and absolutely dominated by this council as to their policy, and the school system was at a standstill. The board is now enterprising and progressive, free from political control or bias and women have gained recognition to the extent of two members on the board. There has been great advancement in buildings, equipment, teaching force and spirit and the improvement in the schools is apparent to the most casual observer.”

It would be possible to add many others to the testimony of those here quoted. Of the 30 districts still organized under special charter, only ten are cities of over 10,000 inhabitants. Many of the others are mere villages, or towns of two or three thousand population and consequently do not come into the same class with Jacksonville. Several of the ten have charters which do not embody the most objectionable features of the Jacksonville school law.

It is worthy of note that of the seven fastest growing cities of the state only one, Joliet, still remains under the special charter. And, also that that charter is one of the best in the state. Rapidity of growth does not always indicate superiority in a city, but it does nearly always indicate a spirit of progress and an adaptability to new conditions which might in themselves, prove an incentive to growth in certain more conservative cities. Those who desire to see Jacksonville grow, we submit must not so much fear to see Jacksonville change, as Woman's Civic League.

SITUATION AROUSES INTEREST IN I. N. G.

MEXICAN CRISIS MAKES SERVICE OF LOCALS PROBABLE.

Men would be called to Springfield in Case Guardsmen Are Ordered Out—Re-enlistment Necessary for Foreign Service—Roster of Company B.

General Huerta's refusal to salute the American flag, bringing with it the prospect of war between the United States and the southern republic, has aroused interest as to what would be done with the National Guard, should the situation demand their service.

At present Company B, has 60 officers and men. In case they should be called, word would be sent for the company to report in Springfield at a certain time and the company recruiting officer for war would either stay here or return from Springfield to recruit the company to war strength, which would be between 100 and 105 men. At Springfield the guardsmen would be enlisted in the volunteer service and given a thorough physical examination. It is highly probable that they would all be vaccinated, as this precaution was taken during the Spanish-American war when the Illinois men were called.

Enlisting the men in the volunteer service, is done for the reason that a National Guardsman enlists only for service in the United States. This re-enlistment could take place at the border, but as a number might not pass the examination and might be rejected for other reasons, it is more probable that it will be done in Springfield. After preparations had been completed, the men would then be taken to a mobilization camp and receive orders for service there.

Receives Letter From Col. Wood.

Capt. L. P. Owen, of Company B, received a letter recently from Col. Frank S. Wood, commanding officer of the Fifth Regiment, calling attention to the tense Mexican situation and asking that everything be done so that the "Fifth" be ready in case the call should come. A similar letter was sent to all company commanders. A copy of it follows:

"The Commanding Officer, for the past three years, has persistently maintained that war with Mexico was inevitable. Events of the past thirty days have served to strengthen this belief and that it is much nearer than many realize.

"It is none too soon to begin careful preparation for the call, so when it comes we will be found ready to answer promptly and efficiently.

"It is not our wish that a 'hurrah' campaign for recruits be inaugurated by any company commander, as that attracts a more or less undesirable set of men. Let it be known to such whom you know to be men of character in your community, that if they mean to serve their country in time of war, that now is the accepted time.

"We want to take troops to our mobilization camp who have passed the recruit period, and are fairly well drilled and disciplined. Every member of the companies should endeavor to interest and enlist the support of such men who will serve with credit to the country and regiment.

"All drills should be promptly and carefully attended and hard, intelligent work be exacted of every officer and man.

"Particular attention should be given to the instruction of the non-commissioned officers. If they are well informed and have an intelligent understanding of their duties, much more effective work can be accomplished.

"Schools for non-commissioned officers should be held one evening each week, and the duties of non-commissioned officers as required in the 'School of the Squad' and the 'School of the Company' carefully studied.

"The best non-commissioned officers of today, will be the commissioned officers of tomorrow.

"I ask and expect the hearty cooperation of every member of the 'Fifth' in making our organization ready when the call shall come. 'Do It Now.'"

Regimental Adjutant Writes.
A second letter was received by Captain Owen Monday from Dale G. Rogers, regimental adjutant. The letter follows:

"Col. Wood, assuming that the old maxim, 'in time of peace prepare for war' still holds good, directs that each company commander and each local recruiting officer for war, take the new 1913 Army Regulations and read the whole of Article XLIV which begins on page 90, and to read over G. O. No. 3, A. G. O. Ill., series 1913.

"Every officer possessing a copy of the 1913 A. R. should subscribe for the Army Alterations; it is a quarterly pamphlet published in Kansas City, Mo., by the Franklin-Hudson Pub. Co. The subscription price by the year is \$2 or 75 cents for each copy.

"The Army Regulations as you have them now are correct to date and should be kept that way, by having a list of the changes that are made and which are published in the Army Alterations.

"Recruiting officers will keep a continual check on their supply of blanks. There are only four different blanks that you need, i. e., the enlistment blank, the physical examination blank and the blank vouchers for expending money. No excuse whatever, will be accepted from a recruiting officer who is caught without the necessary blanks and plenty of them.

"Company commanders will quiz their recruiting officers and occasionally check up their supply of blanks, to make sure that there will

be no cause for delay, should we get a call.

"This morning's papers quotes the Adjutant General as saying that it will take sixteen hours to mobilize the Illinois troops at Springfield.

"It all depends on the local recruiting officers, whether the 5th is the last one ready, or the first."

ELECTION WILL BE HELD IN JACKSONVILLE TODAY

Two Board of Education Members Will Be Chosen.—E. E. Wells and G. S. Rogerson are Republican Candidates—Question of General Law vs. Charter to Be Settled.

In the election today for members of the board of education in third and fourth wards and upon the general school law in all four wards the polls will open at 7 and close at 5 o'clock. The polling places will be in the same locations used in previous elections or very near the former locations.

The ballots to be used in deciding the school matter will have the question in the following form:

"Shall the Board of Education of the City of Jacksonville, Illinois, have the powers conferred upon such boards in districts organized under the free school laws of the State of Illinois."

Those who are in favor of adopting the general law will vote "Yes" and those who believe in management of the schools under the charter will vote "No."

In the third ward the candidate endorsed by the Republican party is Ellsworth Wells, who is now serving as a member of the board of appointment. Mr. Wells during the time he has been on the board has manifested a keen interest in school affairs. His practical knowledge of building matters has been of large value to the board and his whole experience has been such that he should be able to render still more efficient service in days to come. The people of the third ward will do well to re-elect him today.

In the fourth ward George S. Rogerson is again a candidate. Mr. Rogerson during the several terms he has been a board member has indicated his desire to build up the schools and to increase their good work. He has been a hard working consistent board member and should be returned today to continue his duties.

MORTUARY

Ornellas.

Edward Ornellas died Sunday afternoon at 4:30 o'clock at his home on the corner of South West street and Michigan avenue after a lingering illness.

The deceased was a member of the Baptist church, having joined during the Billy Sunday meetings in this city. He was also a member of Camp 912, M. W. A., the Knights of Macabees No. 12 and of the local cigar-makers union No. 114. Mr. Ornellas is survived by his widow, two children Leona and Russell, one brother, Samuel Ornellas; and two sisters Miss Mary Ornellas and Mrs. Frank Vieira.

Funeral services will be held at the Baptist church this afternoon at 2:30 o'clock.

ANOTHER LOT OF GAGE HATS EXPECTED TODAY.

SUNDAY FIRE ALARMS.

The fire department was called out Sunday morning to Maplewood Sanatorium where the roof of the west building had caught fire from a spark. Two holes were burnt but the flames were extinguished with Babcock apparatus by Assistant Chief Harvey. Before the department returned from this fire a call from North West street, where a box car used as a residence, was in flames. A team from Cherry's was hitched to the old hose wagon and it was taken to the fire but meanwhile the firemen returned from South Diamond street and went to North West street without returning to the department quarters. The box car fire was extinguished before great damage had been done. In the afternoon the department was called to put out a fire in the rear of Batz cafe where the fence was burning.

In the election today, if you favor the general law vote "Yes"; if you favor the present charter vote "No."

The Secret of Health is Elimination of Waste

Every business man knows how difficult it is to keep the pigeon holes and drawers of his desk free from the accumulation of useless papers. Every housewife knows how difficult it is to keep her home free from the accumulation of all manner of useless things. So it is with the body. It is difficult to keep it free from the accumulation of waste matter. Unless the waste is promptly eliminated the machinery of the body soon becomes clogged. This is the beginning of most human ills.

Rheumatic Throat Is Common Trouble

**Should Be Treated in Blood
To Prevent Recurrence.**

There are successful gargles that stop soreness in the throat, but to prevent their frequent return, the blood must be put in order. The best remedy is S. S. S., as it influences all the functions of the body to neutralize the irritants or waste products and to stimulate their excretion through the proper channels.

Rheumatic sore throat is a dangerous indication, as it means that the blood is loaded with more uric acid than the kidneys can excrete, and may thus lead to serious general disturbances.

The action of S. S. S. stimulates cellular activity. It prevents the accumulation of uric acid in local spots. It enables the arteries to supply quickly the new red blood to replace worn-out tissue.

For this reason uric acid that finds the throat on its way to its breaking-down influence, is scattered and eliminated. In other words, S. S. S. prevents chronic conditions by enabling all the organs of the body to secrete healthy mucus. Its influence is shown in a marked improvement of the bronchial tubes, whereby the business of voice with thick, grayish excretions is overcome. S. S. S. well diluted with water, means a blood bath, since it is welcome in the stomach and at once gets into the blood.

S. S. S. is free of all minerals and contains ingredients wonderfully conducive to well-balanced health.

You can get it at any drug store, but do not accept anything else. There is danger in substituting. S. S. S. is prepared only by The Swift Specific Co., 528 Swift Bldg., Atlanta, Ga. Our Medical Dept. will give you free instructions on mail on any subject of blood disorders. Write today.

COUNCIL ENDS TROUBLE WITH C., B. & Q. ROAD

**AUTHORIZES C., P. & ST. L. TO
BUILD SWITCH ACROSS INDE-
PENDENCE AVENUE.**

**Question of Purchasing Auto Fire
Truck Delayed Until Today—May
Spend Money for New Boiler In-
stead—Report Presented on Fire
Truck Specifications.**

At the meeting of the city council Monday morning Mayor Davis presented a communication in which he recommended that the council grant the C. P. & St. L. the privilege of building a switch across Independence avenue, which will permit the Burlington to use the C. P. & St. L., and connect up with their own tracks. The council voted to concur in the recommendation.

Commissioner Engel reported that the bid of Wm. Newman, Jr., for the fire truck was the lowest and that if the council desired to buy the apparatus that this bid should be accepted. He said, however, that on account of the amount of discussion there had been concerning the apparatus that he didn't care whether or not it was purchased at this time. Mr. Brennan said that there were indications that another boiler might of necessity be added to the light plant equipment and it might be well to postpone purchase of a fire truck to some later time and buy the boiler now. It was agreed to defer action until today. Mayor Davis reported that a message from General Manager Chubbuck, of the Illinois Traction System, was to the effect that the franchises which the city submitted had been gone over and that they would be forwarded at once to the council.

The council was called to order at the usual time and after roll call the minutes of the last meeting were read. A communication was read from J. W. Theobald, in which he stated that if any ordinance regulating the milk business were passed by the council that he should like to have a hearing on the question when the ordinance was considered. Mr. Theobald's communication on this subject is printed below.

An invitation was read from the Illinois Commercial Federation asking the council to send delegates to the 2nd district conference of the federation which is to be held in Peoria on the 23rd of this month. One of the principal speakers will be Dr. Scowee Sato head of the agricultural college of the Imperial University of Japan.

Will End C., B. & Q. Disagreement.

A communication was then read from Mayor Davis in which he suggested action permitting the C. P. & St. L. to extend their switch track across Independence avenue, to connect with the C. B. & Q. The communication stated that unless this were done there is a possibility if the Burlington building around the city. Commissioner Knollenberg suggested that it would be well to incorporate with the granting of the authority to build a track, a provision that the right was conferred only as long as the C. P. & St. L. maintained its shops here. He said that all the C. P. & St. L. desired the track for was to rent it to the Burlington and that unless the city was to be helped by having the shops here that the rental for the track should come to the city rather than to the C. P. & St. L. Mr. Imgrund, master mechanic of the C. P. & St. L., was present, and when asked if he knew anything about the matter said that to insert such a provision in the contract would not have any specially good effect as the road could evade it by keeping the shops with only one or two men at work. He said further however that the general manager of the road had recently told him that it was the intention of the Burlington to have some of their engine work done at the C. P. & St. L. shops and that in view of this and other facts that it was not likely that the shops would be moved to Springfield.

Mayor Davis had previously stated that Mr. Hurst had told him the same thing relative to the proposed work for the Burlington. Mr. Knollenberg made a motion that his suggestion be incorporated in the recommendation made by the mayor or received no second. Subsequently a motion to concur in the mayor's recommendation was made by Mr. Newman with a 2nd by Mr. Engel and when the question was put it was unanimously carried.

Mayor Davis reported that he had just had a message from Mr. Chubbuck stating that the franchises submitted by the council had been gone over by himself and Mr. McKinley and would be returned to the council within a day or two. The mayor said that the ordinances were originally prepared by the city attorney but he had had no idea as to what changes might have been made in them. He said he would call the council for a consideration of the franchises just as soon as they were received.

Commissioner Knollenberg was authorized to pay some long standing bills of the Journal Co. for advertising costs in public improvement work.

May Need New Boiler.

Commissioner Brennan reported that the new flues in one of the boilers at the light plant on account of the extra expansion were damaging other flues in the boiler and that there were strong indications that it would be advisable to buy a new boiler very soon. He said that two or three months ago an inspector had reported that the boilers were all right and that he had asked for a special inspection and that the man was here now for that purpose the fires having been drawn at day break Monday in order to make the inspection possible.

The ordinance increasing the pay of engineers and firemen in the light plant was given a second reading and passed.

Commissioner Engel handed the clerk a report prepared by A. B. Johnson of Springfield on the specifications and bids for the auto chemical wagon which the city has proposed to purchase. This letter recommended the Harder truck on which a bid was submitted by David Estaque. Mr. Engel read the proposal made by Mr. Wm. Newman, Jr., in which the Nott Engine Co., expressed a willingness to bring a truck here for a 60 day test and submit the question of its efficiency to a committee of mechanics.

The company was also willing to wait for pay until next February without interest. Mr. Engel said further that the bid of Mr. Newman was the lowest and that if the apparatus could be purchased now that he would recommend the Newman bid. However the commissioner said that he wasn't particular whether the council purchased any truck at all or not at present. He said there had been a lot of unpleasant discussions about the proposed purchase. Friends of Mr. O'Donnell had been to him and said that Mr. O'Donnell hadn't got a fair deal. Friends of Mr. Newman had been to him with the suggestion that Mr. Newman wasn't going to have a fair deal; while friends of Mr. Estaque had presented arguments why he should have a fair deal. Then he said there were some other people who suggested that it wouldn't be legal to award the contract to Wm. Newman, Jr., because his father might have an indirect interest in the matter, because of all this discussion and these suggestions the commander intimated that he was pretty well disgusted with the whole transaction as he had been trying to give everybody a fair and square chance.

Commissioner Newman said that he had no connection of any kind whatever with his son's business.

Mr. Estaque called the attention to the council to the fact that by omitting an equalizer and reducing the size of his motor to that required in the specifications that his bid of \$5,000 would be reduced to \$4,675. He also made some statements relative to the reputation and efficiency of the apparatus that he was proposing to furnish. The council also heard a statement from Wm. Newman, Jr., and the two auto dealers in addition had some interchange of argument on the side.

At this point Commissioner Brennan again brought up the question of deferring action on the fire equipment and using any available money for the purchase of a new boiler if the inspection which was made Monday should result in a decision that a new boiler must be installed. It was then agreed that no action should be taken until a report had been made by the boiler inspector and a meeting will be held this morning to hear this report. The council then adjourned.

The communication from Mayor Davis relative to the C. P. & St. L. road made by Mr. Johnson of Springfield on the auto truck bids, the text of the guarantee proposition accompanying Mr. Newman's bid and the letter from Mr. Theobald relative to Jacksonville milk legislation are given below.

**Recommendation Concession to
C. P. & St. L.**

Jacksonville, Ill., April 20, 1914.

To the Honorable Commissioners of the City Council, of the City of Jacksonville.

Gentlemen: On last Friday I had a conversation of Mr. W. C. Hurst, general manager of the Chicago, Peoria & St. Louis Railroad company, relative to making a connection between the tracks of this company and those of the Chicago, Burlington & Quincy Railroad at Independence avenue.

While Mr. Hurst did not make the statement there seems to be a general impression that if this connection cannot be made that the Burlington will annul its contract with the Chicago, Peoria & St. Louis Railroad company and build a line around Jacksonville to the east and outside of the city limits.

While I do not feel that the city of Jacksonville is under any particular obligation to the Burlington, I do believe that some consideration should be shown the Chicago, Peoria & St. Louis company. This road has a payroll that is distributed in Jacksonville that amounts approximately to \$100,000 a year. This means much to merchants of all classes.

In the city will agree to have this connection made Mr. Hurst agrees to take up the dead track in East State street in order that the Jacksonville Railway Co., may lay their tracks across the railroad right of way and make a continuous service on East State street east of the railroad tracks. He also agrees to take up the short switch in Illinois avenue between the Wabash right of way and East State street. This will be placed to east of the main tracks and will give a roadway on Illinois avenue of over twenty feet in the clear. This has long been desired and will be of great benefit to the property owners and owners of vehicles.

In view of the foregoing fact, I would respectfully recommend that the city attorney be instructed to have the injunction now standing against this road dissolved and that they be given permission to proceed with the work desired, on filing a written acceptance of the terms of this communication.

Respectfully submitted,

Geo. W. Davis, Mayor.

Report on Fire Truck.

Springfield, Ill., April 15, 1914.

Hon. L. H. Engel, Commissioner of Public Health and Safety, Jacksonville, Ill.

My Dear Sir:

Enclosed find specifications left with me several days ago, for the purpose of examination, and to report to you. I will deal with them in the order in which I think they ought to receive consideration at your hands.

The first truck under consideration is that of the Harder Auto Truck company. From a careful examination of the specifications before me, and after going over the same with two of my best mechanics, I am of the opinion that this truck will give you the best service. The specifications are ideal, and comparing them with the others, I feel you should make no mistake in taking this truck.

The next in consideration is the Hardwood-Barley Mfg. Company of Marion, Indiana. As to this truck I can find scarcely anything to complain of in its specifications, except as to power, and I am of the opinion that it hardly has power enough for the purpose intended, and as power is an item in trucks of this kind, it should be considered seriously by the commissioners.

The next in order is the Seagrave company of Columbus, Ohio. This is a fair machine, but when comparing the specifications with the other two mentioned, I feel, as also do my mechanics, who examined the same, that the other two trucks should receive more favorable consideration.

The same is true of the proposal of the Nott Fire Engine company of Minneapolis, Minnesota.

From a careful examination of the American LaFrance Fire Engine company, incorporated with their general office in Elmira, New York, I should feel justified in saying that this proposal should not be considered.

In writing you this opinion, I have reached the same from a careful investigation of the specifications before me, applying my own knowledge to the same, as a dealer, and also that of two of my best mechanics, whom I invariably consult in matters of such importance.

I trust that the above will be of use to you, and assuring you of my pleasure of being of service to you at any time you desire, I beg to remain Yours truly,

A. B. Johnston.

Mr. Newman's Proposal.
Jacksonville, Ill., April 3, 1914.

Hon. Mayor and Commissioners of the City of Jacksonville, Ill.

Gentlemen: Attached hereto find my personal blank contract and detail specifications covering one combination chemical engine and hose wagon, which I offer and hereby submit for your consideration.

As I am the local representative of the Nott Fire Engine company, and have the best interests of the City of Jacksonville in mind, I offer to give to the City of Jacksonville my entire commission of fifteen (15) per cent, making the price of this machine to Jacksonville net four thousand, six hundred and seventy-five (\$4,675.00) dollars.

Further, I offer to bring to the City of Jacksonville this machine and enter it in competition with any other machine that may be offered to you for your consideration and agree to demonstrate it to be superior in construction, material, workmanship and efficiency. Said demonstration to be given under the supervision of a committee of competent mechanics and automobile machinists, and if I do not demonstrate this machine to be all that it is claimed to be, the City of Jacksonville is under no obligations whatever to accept the same.

If I have not made my proposal strong enough and the honorable body does not believe that I am sincere and that my machine is not what I claim it to be, I will ask you to reverse the condition of contract and if some other machine is selected than my own and you permit me to bring my machine here and if I demonstrate before a committee of expert mechanics and automobile machinists that my machine is superior in workmanship, material, construction and efficiency, that the contract to whoever it may be awarded, same be cancelled null and void and be given to me.

Further, as an evidence of good faith on my part I will execute a bond on the sum of five thousand, (\$5,000.00) dollars, binding myself to faithfully perform all the provisions of my proposal contract specifications and this letter.

Respectfully submitted,

Wm. Newman, Jr.

Discusses Milk Supply.

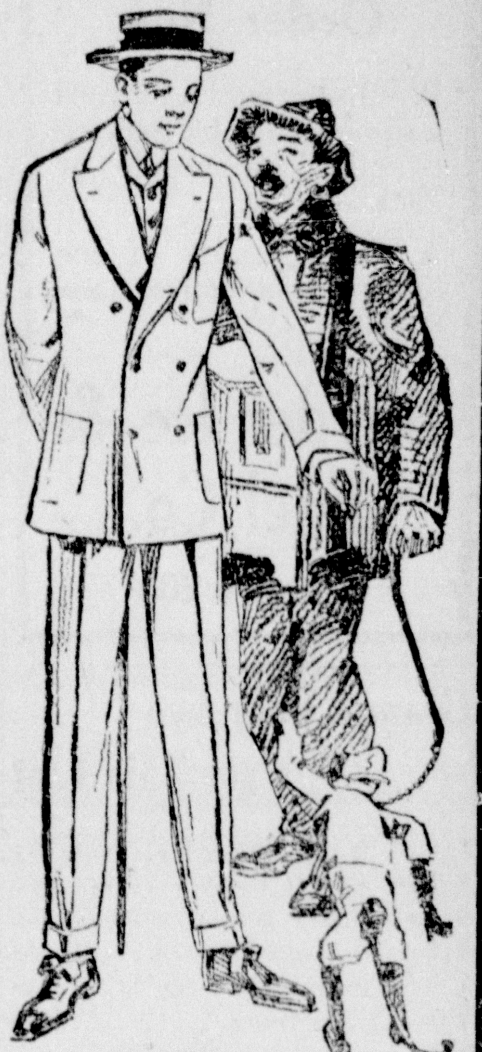

Jacksonville, Ill., Apr. 13, '14.

To the Mayor and City Commissioners of Jacksonville:—I see by the Jacksonville Courier where some of the physicians of the city are or seem to be very much interested in the city's milk supply so much so that I fear some of them are neglecting their own business and trying to attend to some other people's especially that of the milk producers and the general public. I will frankly state that pure milk as is to be found in our city and much better than in many. And if there is anyone who is not getting good, pure, clean, wholesome milk it is their fault, because there is plenty of such to be had. All they need to do is to call for it. There are a number of wagons passing by their door every day with that kind of milk and so far as I can learn the people are well satisfied, and the agitation is only by a few cranks and not by the leading physicians of the city. And to me it looks very much like some who have nothing to do in their own profession, are looking for a position at a good salary and at the people's expense. I in common with the general public (who pay the bills) think we are entitled to some municipal benefits or improvement and not have all taxes we pay to be used for salaries and positions and then the person so appointed know nothing about the business of which he is appointed to inspect. Possibly those physicians are not aware that we already have a state law covering most of their suggestions and all that are of value and practical; also that the state inspectors come around from two to six times every year, inspect milk, cows, barns, cans, bottles, etc., and have all the powers they ask for in their ordinance. If they present their ordinance for your consideration I trust you will see the uselessness of it and in a polite way let it

TO TRY OFFICIALS OF WRECKED BANK.

Newark, N. J., April 20.—Several of the officials of the defunct Roswell Trust company of this city are to be placed on trial this week on charges growing out of the failure of the bank, which closed its doors on August 12 last on order of the state bank examiner. The men to be tried are Raymond E. Smith, who was secretary and treasurer of the wrecked bank; William J. Thompson and A. Randolph Jennings, tellers, and Charles Mindlich, a junior clerk in the bank. The four are under charges ranging from mismanagement to forgery. In addition, several outsiders are under indictment for conspiracy to wreck the bank. The conspiracy charges will be tried later.

CARDINAL FARLEY 72 YEARS OLD.

New York, April 20.—Cardinal Farley was showered with congratulations from the Catholic clergy and laity of his diocese today on the occasion of his 72nd birthday anniversary. The cardinal is in excellent health. He has arranged to sail next Saturday to pay his ad limina visit to the pope. It will be his first visit to Rome since his elevation to the cardinalate.

Paint Up.

By WALT MASON.

As I've often said before, you should toddle to the store, if your standoffs are not too faint, and invest in yellow paint; then embellish house and barn, till the neighbors say, "By darn! What a lovely, gorgeous hue! We must get to painting, too!" That's the way great movements start; some wise gent with hero heart sets the pace and then the guys follow where his pathway lies. If with glad and joyous whoop you should paint your chicken coop, red or yellow, pink or gray, you will see the neighbor jay to the nearest drugstore rush, there to buy some paint, a brush; and next day you'll see that chump putting green stripes on his pump, and he'll give a coat of blue to the fence and clothesline, too. In the spring Dame Nature tries to astonish human eyes, spreading on the colors thick; everything is span and spick; fields of green and skies of blue, everywhere a pleasing hue. And her sunlight often falls on our gray and dingy walls, and it makes her sick and faint, that we don't indulge in paint. Buy a gallon can right now! Paint the sidewalk and the cow, paint the house and paint the shed, paint things yellow, paint them red!

Cook Without Heating the Kitchen

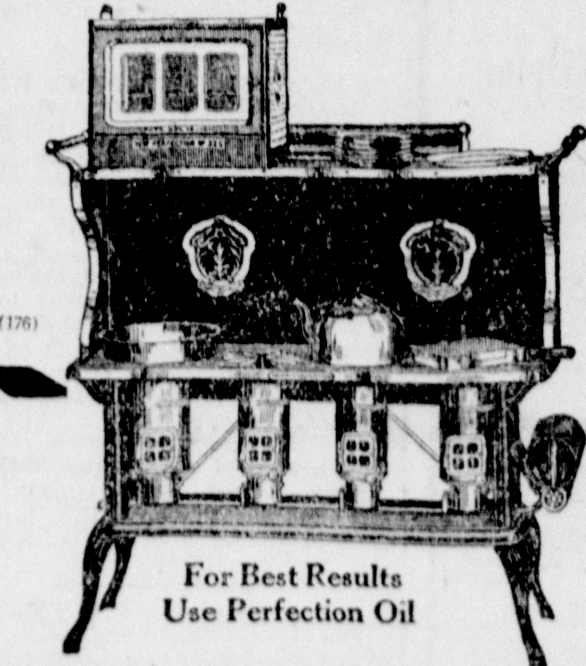

NEW PERFECTION Wick Blue Flame cook stoves do exactly the work of the coal range without the terrible exhausting heat and dirt and trouble. They burn clean, convenient, economical oil, the ideal fuel; will almost save their cost during the season.

NEW PERFECTIONS come in 2, 3, and 4 burner sizes, which your dealer can show you. Ask him to explain the special burner construction, how the broiler broils on both sides at once, and about the patented fuel reservoir, refilled without turning off your fire.

New Perfection Oil Cook-stove

Operated exactly like gas, but far cheaper. None of the dangers of gasoline; no smoke, no odor.

Be sure and see the latest model with the new THERMOS oven, an invention that gives you a range and fireless cooker combined. Don't forget that fuel saving soon makes up the price of the stove. That a cool kitchen makes cooking easy, especially when striking a match gives you your fire.

MURDERER ON TRIAL.

San Francisco, April 20.—Abraham Pepper, who last February killed Mrs. Dorothy Dannhauser Johnson, a bride of a week, and then attempted suicide, was arraigned in court today to stand trial on a charge of first degree murder. Both Pepper and his victim were residents of Tacoma. According to the statements made by Pepper after the tragedy he and Miss Dannhauser were engaged to wed, when the young woman suddenly changed her mind and married Johnson. The couple came to San Francisco on their wedding trip. Pepper followed and called upon the bride at her hotel. A few minutes' conversation was followed by the fatal shots. It is understood that the slayer will rely upon emotional insanity for his defense.

PRESIDENT WILSON'S APPEAL TO CONGRESS

ASKS APPROVAL TO USE ARMED FORCES OF U. S. AGAINST HU- ERTA.

Chief Executive Outlines the Events
Leading up to Crisis With Mexico
and Declares He Will Support the
Demand Made by Rear-Admiral
Mayo for an Apology for Insults to
U. S. Government by Huertistas.

Washington, April 20.—Asking approval to use the armed forces of the United States in such a way and to such an extent that may be necessary to obtain from Gen. Huerta and his adherents the fullest recognition of the rights and dignity of the United States, President Wilson today personally appealed to a joint session of congress.

"It is my duty to call your attention to a situation which has arisen in our dealings with Gen. Victoriano Huerta at Mexico City, which calls for action, and to ask your advice and co-operation in acting upon it."

"On the ninth of April, a paymaster of the United States steamship Dolphin landed at the Iturbide bridge landing at Tampico with a whaleboat and boat's crew to take off certain supplies needed by this ship, and while engaged in loading the boat was arrested by an officer and squad of men of the army of Gen. Huerta. Neither the paymaster nor anyone of the boat's crew was armed. Two of the men were in the boat when the arrest took place and were obliged to leave it and submit to be taken into custody, notwithstanding the fact that the boat carried, both at her bow and at her stern, the flag of the United States. The officer who made the arrest was proceeding up one of the streets of the town with his prisoners when met by an officer of higher authority who ordered him to return to the landing and await orders, and within an hour and a half from the time of the arrest orders were received from the commander of the Huertista forces at Tampico for the release of the paymaster and his men. The release was followed by apologies from the commander and later by an expression of regret by Gen. Huerta himself. Gen. Huerta urged that martial law obtained at the time at Tampico; that orders had been issued that no one should be allowed to land at the Iturbide bridge, and that our sailors had no right to land there."

"Our naval commanders at the port had not been notified of any such prohibition, and even if they had been the only justifiable course open to the local authorities would have been to request the paymaster and his crew to withdraw and to lodge a protest with the commanding officer of the fleet."

Admiral Mayo regarded the arrest as so serious an affront that he was not satisfied with the apologies offered, but demanded that the flag of the United States be saluted with special ceremony by the military commander of the port."

"The incident cannot be regarded as a trivial one, especially as two of the men arrested were taken from the boat itself—that is to say from the territory of the United States; but had it stood by itself it might have been attributed to the ignorance or arrogance of a single officer."

"Unfortunately, it was not an isolated case. A series of incidents have recently occurred which cannot but create the impression that the representatives of Gen. Huerta

were willing to go out of their way to show disregard for the dignity and the rights of this government, and felt perfectly safe in doing what they pleased, making free to show in many ways their irritation and contempt."

"A few days after the incident at Tampico, an order from the United States ship Minnesota was arrested at Vera Cruz, while ashore in uniform to obtain the ship's mail, and was for a time thrown in jail."

"An official dispatch from this government to its embassy at Mexico City was withheld by the telegraphic service until peremptorily demanded by our charge d'affaires in person."

"So far as I can learn, such wrongs and annoyances have been suffered to occur only against representatives of the United States. I have heard of no complaints from other governments of similar treatment."

"Subsequent explanations and formal apologies did not and could not alter the popular impression, which, it is possible, it had been the object of Huertista authorities to create, that the government of the United States was being singled out and might be singled out with impunity, for slights and affronts in retaliation for its refusal to recognize the pretensions of Gen. Huerta to be regarded as the constitutional provisional president of the republic of Mexico."

"The manifest danger of such a situation was that such offenses might grow from bad to worse until intolerable a sort as to lead directly and inevitably to armed conflict. It was necessary that the apologies of Gen. Huerta and his representatives should go much further, that they should be such as to attract the attention of the whole population to their significance and such as to impress upon Gen. Huerta himself the necessity of seeing to it that no further occasion for explanations and professed regrets should arise."

"I, therefore, felt in my duty to sustain Admiral Mayo and the whole of his demand and to insist that the flag of the United States should be saluted in such a way as to indicate a new spirit and attitude on the part of the Huertistas."

"Such a salute Gen. Huerta has refused and I have come to ask your approval and support in the course I now propose to pursue."

"This government can I earnestly hope, in no circumstances be forced into war with the people of Mexico. Mexico is torn by civil strife. If we are to accept the tests of its own constitution, it has no government. Gen. Huerta has set his power up in the City of Mexico such as it is, without right and by methods for which there can be no justification. Only part of the country is under his control. If armed conflict should unhappily come as a result of his attitude of personal resentment towards this government, we should be fighting only Gen. Huerta and those who adhere to him and give him their support, and our object would be only to restore to the people of the distracted republic the opportunity to set up again their own laws and their own government."

"But I earnestly hope that war is not now in question. I believe that I speak for the American people when I say that we do not desire to control in any degree the affairs of our sister republic. Our feeling for the people of Mexico is one of deep and genuine friendship, and everything that we have so far done or refrained from doing, has proceeded from our desire to help them, not to hinder or embarrass them. We would not wish even to exercise the good offices of friendship without their welcome and consent. The people of Mexico are entitled to settle their own domestic affairs in their own way, and we sincerely desire to respect their rights. The present situation need have none of the grave implications of interference if we

ANOTHER STRING OF LOW PRICE RECORDS FOR YEAR IS RECORDED

Mexican Crisis is Referred to as
Predominating Bearish Influence
in the Stock Market.

New York, April 20.—The decline in stocks continued today and another string of low records for the year, numbering nearly a score was recorded. In the list were some of the popular trading shares, such as Reading, Union Pacific and Steel. At the opening the market was under pressure and it lost ground rapidly during the first quarter of an hour. A rally ensued which restored quotations to a level with the preceding close, or above, but during the afternoon the downward swing appeared on this movement and some of the prominent issues, including Union Pacific, Northern Pacific, Lehigh Valley lost two or three points. The Mexican crisis was generally referred to as the predominating bearish influence.

cope with it promptly, firmly and wisely.

"No doubt I could do what is necessary in the circumstances to enforce respect for our government without recourse to the congress and yet not exceed my constitutional powers as president, but I did not wish to act in a matter possibly of so grave consequence except in close conference and co-operation with both the senate and house."

"I, therefore, come to ask your approval that I should use the armed forces of the United States in such ways and to such an extent as may be necessary to obtain from Gen. Huerta and his adherents the fullest recognition of the dignity of the United States even midst the unhappy conditions now obtaining in Mexico."

"There can in what we do be no thought of aggression or selfish aggrandizement. We seek to maintain the dignity and authority of the United States only because we wish all ways to keep out great influence and impaired for the uses of liberty, both in the United States and wherever else it may be employed for the benefit of mankind."

SAYS SULPHUR IS SURE TO RELIEVE ITCHING ECZEMA

Get Ounce of Bold-Sulphur Cream
and Heal Skin Eruptions Right
Up.

Any breaking out or irritation on the face, arms, legs or body when accompanied by itching, or when the skin is dry and feverish, can be readily overcome by applying a little bold-sulphur cream, says a noted dermatologist.

He informs us that bold-sulphur instantly allays the angry itching and irritation and soothes and heals the Eczema right up leaving the skin clear and smooth. Bold-sulphur has occupied a secure position for many years in the treatment of cutaneous disorders because of its parasite-destroying property. Nothing has ever been found to take its place in treating the irritable and inflammatory skin affections. While not always establishing a permanent cure it never fails to subdue the itching irritation and drive the Eczema away and it is often years later before any eruption again appears on the skin.

Those troubled should obtain at any pharmacy an ounce of bold-sulphur cream which is applied to the affected parts in the same manner as an ordinary cold cream. It isn't unpleasant and the prompt relief afforded, particularly in itching Eczema, proves very welcome.

Why Is It a Favorite?
There are good reasons why Chamberlain's Cough Remedy is a favorite with the mothers of young children. Read what one of them says of it: "There could be no better medicine than Chamberlain's Cough Remedy. My children were all sick with whooping cough. One of them was in bed, had a high fever and was coughing up blood. Our doctor gave them Chamberlain's Cough Remedy and the first dose eased them, and three bottles cured them," says Mrs. R. A. Donaldson, of Lexington, Miss. For sale by all dealers.—Adv.

WAR OUTLOOK PREVENTS FRESH COLLAPSE OF CORN

Holders Seize Opportunity to Get
In Line With Sharp Competition
From Argentine.

Chicago, April 20.—It was for a brief interval today that the war outlook prevented a fresh collapse of the corn market. Holders especially seized the opportunity to press the sale of huge amounts and to get in line with the sharp competition from Argentine. Prices closed weak at a loss of 1/2 c off to 1/4 c up and oats a shade down to a like advance but provisions demoralized almost as much as corn with declines varying from 20 to 67 1/2 c @ 70 c.

WHAT IS IT?

Wood's Grain Softener
100 Bushel Size.

We mix it with ground oats or shorts, while hot. This softened corn is good feed mixed with silage. Can be seen in operation on my farm on R. R. No. 6.

This device will enable you to fatten two hogs and two steers on the same amount of corn that one is commonly fed and produces a better grain. We guarantee it.

We grind up the cob with the corn, feed the hogs on syrup drawn off the corn

FARMERS NOTICE

We Are Now Manufacturing Fertilizers For Soil

We have made a careful study of soil conditions and are now putting up an article which is considered the best on the market for INCREASED YIELD OF Corn or Oats. The same has the following analysis:

Bone phosphate 63.09 per cent.
Phosphoric acid 28.90 per cent.
Nitrogen 2.53 per cent.
Ammonia 3.07 per cent.

If you will carefully compare the analysis of our ROYAL BRAND BONE MEAL, you will find that the same is cheaper than the use of Rock Phosphate or any other fertilizers which are now on the market.

It only requires from 100 to 150 pounds of our BONE MEAL to an acre of soil, depending upon the condition of the soil. This will increase your yield of corn or oats from 10 to 20 bushels to the acre for the first year.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—
Most Women Can Have.

Says Dr. Edwards, a Well-Known
Ohio Physician.

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards Olive Tablets, you will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter that one's system collects.

If you have a pale face, hollow look, dull eyes, pimples, coated tongue, headaches, a listless, no-god feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women, as well as men, take Dr. Edwards' Olive Tablets now and then just to keep in the pink of condition.

CALLED TO WALK
WITH CHRIST.

(By Robert Mutch)

On the eleventh day of September, 1911, while going to my business, after one of the darkest nights of my life, I was thinking how little we know of God and how far He seemed to be from us. My belief in the Bible was that the church should be a real tangible help in time of trouble, but now that I was needing that help so badly, I had not found it to be so. My wife was ill and the doctor gave me no hope for her recovery. I had money to buy all the things that it could buy, but the help that I needed, could not be bought and I did not know where to look for it. This, among other things, was racking my mind and I hated the world and every one in it, even myself, but I decided to fight on the best I could for the sake of my family, whom I loved so dearly, and try to regain my peace of mind. I had previously confessed to a neighbor that I believed every word of the Bible, but could not understand it and many times had I confessed my belief in Christ and knew from the words He had uttered that I was a sinner. We hear Him say: "The things I do, you can do, if you will follow me." We do not, however, see those things done today, for the reason that no one will really follow Him and the church, which is supposed to stand for Him upon this earth, does not show us the "Signs Following," because it denies the power, having only a form of Godliness as Paul said it would. This was the way the church looked to me that morning, and, as I have found out since, to many others in the world, when without warning, I was filled with love for the very ones I had been hating and with life and an understanding of the scriptures. Right then I began to believe that God could do anything and that some love could heal my wife or any one who was willing to accept it. The greatest thought that was given me was that of saving sinners and the impression on my mind that I was called for them, filled me with a sweet peace.

Upon the third day following, the Lord gave me a revelation. In it He showed me that all things had been done for my good and that my wife could be healed, but I must leave the world and work for Him or lose everything. Shortly after the sweet peace that had so filled me was taken away. All was again bitter and I was shown to work out my own salvation with fear and trembling. I knew I was full of sin, but no longer had the assurance that God was not far off, as he had seemed before, but ever present. Having been given a taste of His love, it was now my desire to press on and win it.

One day soon after I was led by the spirit to call upon some believers in Christian Science to heal my wife. In talking to them regarding their belief the divinity of Christ was mentioned and they denied it. Then the spirit said to me, "Beware of false prophets, which come to you in sheep's clothing, but inwardly they are reviling olives."

I then tried the church, as in James 5-14 we are told to call for the elders of the church, and let them pray over you, anointing with oil in the name of the Lord, but found none who believed in so doing.

I finally took my wife to California, having heard through some friends that there were people living in Los Angeles who believed and practiced this command. Many of these believers prayed for her and she began to show signs of improvement, but when I tried to join myself to any body of them, God would show me to stay away. I asked Him why He would not let me join them, and He showed me that I had been called according to His purpose and was to be the first called among many brethren, but must wait on Him.

I returned home, leaving my wife in California, and then the Lord took all books from me but the Bible. I found He did this because all Christian writers dwell upon works, whereas He had bidden me wait on Him, being justified by faith, not works, and the spirit said to me, "The zeal of my house has eaten me up." I understood this, but the church members I talked with did not, so I asked the Lord why they did not and his answer was, "You cannot put new wine in old bottles."

My wife came home March 1, 1912, completely healed and I started to take up my business once more. Instead of the success of the past years, was now an utter failure and these words of our Lord were with me constantly, "You cannot serve God and mammon." I could not fight against His words, so was forced to give it up entirely and continue to wait on Him. He showed me I was living the wilderness life and would reach the promised land, March 1, 1913, the first month of the holy year.

It was on the fourth of March that I was led to St. Louis and there received the word to proceed to Brownsville, Texas. It, at that time, was the only port open, but it looked better to me to go by the way of Laredo, so bought a ticket through there. Arriving at Laredo, found the port had been opened just the day before, so was able to proceed to Monterey. There I had to stay all night, trains only running during the day, as the condition of affairs made it unsafe to travel at night. At this place I was shown to leave all American alone during my trip and stay with the Mexicans, as I had been sent to them. The Lord showed me two men on the same train out of Monterey, both Mexicans, who were to be my companions and guides. They both spoke English and we soon became warm friends and they did all they could for me in every way while we were together. They were ignorant of why I was in that country, but soon the Lord revealed it to one of them and he said to me, "Jesus has sent you down here." My being associated with these men explained the three boys I had seen in the revelation, as God looked upon us all as Mexicans and

brothers, we being no respecter of persons.

My entire trip to Mexico City revealed the wonderful power and mystery of the Almighty, for he was handling the armies of that country each to do His will, although they were entirely ignorant of it. I was in the city six days and was well taken care of, all Mexicans being my friends. The Lord upon one day of my stay took me to the building which I had seen practically wrecked and there it was shot full of holes during the battle in that city, signifying the wickedness which had so impressed me.

The rebel army was quite close to Saltillo at his time and there was much talk of an attack being made very soon. Friday night the expected battle began and continued for three days. Saturday morning, during a lull in the fighting, I went out for a walk, not knowing of the attack the night before, and had gone some distance from my hotel, when I heard firing. Beginning to realize what had taken place, I started to return, but could not reach the hotel. The Lord was watching over me, however, for some kindly Mexicans took me in until it was safe to proceed to the hotel.

That night, Saturday, I was led by the spirit to an upper room in the hotel, in which a number of Mexican men were congregated. They Jesus wine and I drank some. As I did so, I surged through my veins and quickened my body to new life. Afterwards this was revealed to me as the ordinance of the Lord's supper. These revelations were all given me while in this city and it was being besieged, therefore war being regarded as hell, I realized that Christ had been planted in me in hell like unto His own burial and it was the Friday before Easter.

In order to resume my homeward journey I was compelled to turn back and go around to Tampico, which I did, and while there was given liberty to associate with Americans again.

After reaching my home in the United States, I was farther from the people of the church than ever before and found no one who understood the commandments of our Lord or His ordinances, as they had been revealed to me. Paul said when the commandments came, I thought them to be ordained to life, but found them unto death. Thus if we keep them, we must die that Christ may live in us.

In July the same year the Lord led me to California and with my family started for Los Angeles. There I found some people who believed me, but did not understand what I told them.

From Los Angeles I went to San Diego and here I was given a desire to buy a home, but when I inquired about a house in the place the Lord led me to, found it to be a restricted district, prohibiting Japanese, Chinese and Mexicans from living there. The Lord had previously shown me that He was no respecter of persons, therefore I could not follow Him and live in such a place.

I was then led out to a colony called "The Little Landers" and it also was restricted, yet there was a

church in the midst of it. They could not see that they were transgressing God's Laws and Christ's Teachings. The Lord then turned my attention to the California Bill, legislating against the Japanese and I knew if I became a citizen of that state, I should be a partaker of its sin. While still in this city, the Lord showed me I must make another trip to Mexico. Not knowing what was before me there, having within myself the sentence of death, I again put all my affairs into the hands of my wife. This left me nothing but my body and I was then called to offer it as a living sacrifice wholly acceptable to God. These words came to me, "Prepare to meet thy God."

As I already felt I was going to meet Christ, had no fear of meeting God. The Lord also showed me that I was not only called for the Mexican people, but for the whole world, as there was distress in all nations and it looked as if Christ would soon have to come to straighten it all.

I left San Diego for Mexico, by boat, on September twenty-sixth being seven days on the water. Arrived at Mazatlan and as this place was surrounded with rebels, could not proceed at once to Manzanillo for the government has pressed all the steamship company's boats into its service.

I arrived in Mexico City, October fourteenth, having had no more delays. The Lord at once began to open my eyes to the wickedness of that city and as I looked it over, found some of the sights to be terrible, yet found many good people who were ignorant of God and His way of salvation. It is plain today, that the world does not know Christ and is far from ready for His return. The Lord teaches us that there is nothing good but God and when He withdraws Himself from any nation or person, evil will appear until the man of sin is revealed. He is being revealed, today, in Mexico, in the person of the President of that country and all nations that have recognized his government, have partaken of his sin and are guilty before God.

The Lord held up before me, President Wilson and Secretary Bryan, who had saved our country from sin and also showed me how He loved the army and navy of this country. He has chosen the country as His, and it becomes the elect of God. The Word says, in the last days, they will try to fool even the elect if possible, but also adds that it is not possible to do so. However, the Lord will show His Power and Authority here, for it is written, "Whom the Lord Loveth, He chasteneth."

The Lord showed me that the campaign of 1912 was in His hands and that each party had its part to play. We see since then, the Progressive party which claimed to be battling for the Lord, passing a Bill out in California, which directly transgressed Christ's Laws. Many followers of this party were ministers and teachers of the Word and it is written, "By their fruits you shall know them." If we judge ourselves we will not be judged and Paul teaches

that we cannot follow the Lord and the devil.

The Lord turned my eyes back over the past months of my life or in fact the past two years, one night while still in Mexico City, and I saw I had been feeding on the crumbs, dropped from His table. I thought how grand it would be, when I was at liberty to sit at the table and eat with Him always, when a rushing wind came down through me and every book of the bible was brought to my memory from Genesis to Revelations. The Spirit said to me, "You have been made all things to all men," but I could not understand what had happened, as I had expected to see something. The Spirit also gave me these words, "You're a fool," and I could plainly see I certainly had been in the eyes of the world, as it considered what I had been doing, the worst kind of folly. These however are the words of Paul, "You must be a fool to win Christ." I had not been baptized with the bible and Jesus was the Word of God made Spirit to me, as it is written, "The wind bloweth where it listeth and thou hearest the sound thereof, but canst tell whence it cometh or whither it goeth, so is everyone that is born of the Spirit." The next day, the Spirit kept saying, "Hell is not far from this place," so heeding this warning, started for my home in the United States.

I started to carry out the Lord's command to spread the news, but every one He sent me to, had some excuse and did not have time to listen. One had some work to go, another was entertaining company at dinner and so on. The Spirit then gave me the parable of the Wedding Feast. I was heart-sick, as I had not dreamed of such unbelief and it was almost more than I could stand. My prayer is that God will yet forgive them and bring them to see the Light of Christ.

Many other things has the Lord shown me, but these are enough to show you, reader, that God is still watching over us and making all things ready for His return. He tells us in His Word of the awful punishments that will come in the last days. Paul tells us that blindness in part had happened to the Jews until thefulness of the Gentiles be come in, therefore God has set a time to judge the church and restore Israel. When He sent me home from Mexico, the last time to spread the news, He brought into the United States, the Tree of Life or the Twelve Tribes of Israel, therefore changing the dispensation of the Gospel and judgment must follow.

The Lord took me in the spirit one night, into heaven and showed me a large mansion almost ready to be occupied and I was taken all through it. I was alone and it was dark. This building was afterwards revealed to me, as the many whom He will call according to the interpretation of the Gospel as He had given it to me. He has made a way of escape from those who will believe and keep the commandments of God and the Faith of Christ Jesus.

The bible is full of what God will do to the wicked and you need not that I repeat it. I wish only to call your attention to the fact that God's wrath is at hand and give you the words the Spirit gave me, "Prepare to meet thy God, O Israel!"

MEETING OF KINDERGARTNERS

Springfield, Mass., April 20.—Teachers of children from the English speaking countries of the world have gathered in this city for the 21st annual convention of the International Kindergarten union. Today was occupied with the reception of the visitors and a meeting of the executive board to arrange the final details of the program. The regular sessions will begin tomorrow and continue until Saturday. Child teachers of national reputation will be among the speakers. Miss Stella L. Wood of Minneapolis, Miss Mary D. Hill of Louisville, Miss Alice E. Fitts of Brooklyn, Prof. Arthur C. Norton of Wellesley college, Mrs. Mary B. Page of Chicago, Miss Anna Williams of Philadelphia, President Hilbert of Princeton university and President Mettlejohn of Amherst college are among those on the program.

NOTED SPEAKERS

Washington, April 20.—Nearly 1,000 delegates filled Continental Memorial hall today when the 23rd national gathering of the Daughters of the American Revolution was called to order by the president-general, Mrs. William Cumming Story, of New York. Vice President Thomas R. Marshall delivered an address of welcome. Other noted speakers heard during the day were Speaker Champ Clark, Edmund Wetmore, president-general of the Sons of the American Revolution. The regular business of the convention will be taken up tomorrow. There is to be no general election of officers at the present convention, but several proposed amendments to constitution and bylaws of the society are to be considered and acted upon. Tomorrow afternoon President and Mrs. Wilson will receive the delegates at the white house.

ANNOUNCEMENTS.

I hereby announce myself a candidate for Assessor and Treasurer, subject to the Democratic primary, Sept. 9, 1914.

Thomas Irlam.

AMERICANS IN LONDON OPERA.

London, April 20.—What promises to be one of the most notable seasons of grand opera given in London in several years has its opening at Covent Garden tonight and will be continued for six weeks. The season will be marked by the production of two new operas, "Lamora del Tre Re," by Italo Montemezzi, and "Francesca da Rimini," by Riccardo Zandonai. Melba, Destinn, Caruso, Scotti, Martinelli and Sammarco are among the famous artists who will take part. Several American singers will be heard in London for the first time, among them Maude Fay, Julia Clausen, Myrna Sharlow and George Everitt.

Dr. E. O. Gable, the Chicago Specialist

Will Return to the Hotel Dunlap from 9:00 a. m. Mon., April 27 until 8:00 p. m. Thurs., April 30

HE WILL GIVE EXAMINATION AND HIS SERVICES FREE AGAIN TO ALL WHO SUFFER

Dr. Gable Talks of Rheumatism, Catarrh, Stomach and Kidney Trouble, Etc.

DR. EDWIN O. GABLE

Neuropathic Specialist.

Almost every case of the above troubles can be relieved with my Neuroptic system of treatment, if the patient comes to me before too much of the tissues of the diseased organ is destroyed. My system of treatment cleanses and purifies the blood. It restores normal circulation and strengthens the nerves, and dissolves disease deposit. I would like every sufferer of these troubles to come to me on this trip to Jacksonville. I will take the time to make thorough examination of the heart, the circulation, the blood and the kidneys, and when I have finished, I will tell them exactly what their condition is; whether they can be relieved or not.

Catarrh of the nose, throat, or constitution, deafness, head noises and ulcers of the ears come from the same cause as rheumatism. I have successfully treated hundreds of cases of catarrh and deafness with my new system of treatment. Most cases of weak eyes, chronic inflammation of the eyes, internal eye diseases and partial blindness are successfully treated by my method. Almost every form of weakness and disease of the nervous system, especially that kind that affects the heart, causing palpitation, shortness of breath, irregular pulse, smothering spells, dizzy spells, sick headaches, pain around the heart—all these troubles are given immediate relief by my treatment. Men and women suffering with weakness of some of their vital organs, no matter where, can obtain complete relief by my system of treatment. Most chronic discharges and wastings are curable.

I have treated a great many people in my two visits to Jacksonville, and have had great success with many old chronic cases. On this trip I am going to make examinations, give consultations and offer my services FREE to every sufferer that comes to me. I am not going to leave you any excuse for not learning of this treatment. I believe it is the most scientific treatment. You have everything to gain and absolutely nothing to lose by getting my professional opinion of your case, by learning exactly the condition of your heart, nerves blood and kidneys. I use no strong poisonous remedies, but such remedies as dissolve and clean out the disease deposits in the blood and tissues, that equalize circulation, that restore strength and vitality to weak nerves. When this is done you are bound to get relief. No matter where you live, rich or poor, I want you to come to see me this trip. You can do a kindness to some suffering neighbor or friend by telling them of my visit and my new system of treatment. Tell them to come and see me. You will also help me do them a kindness. While I will return to Jacksonville every month, this may be the last chance you will have to obtain my services FREE. My object is to cure a number of patients around Jacksonville to prove that my system of treatment is superior to others. Remember the days. I will be at the Hotel Dunlap from 9 a. m., Monday, April 27, until 8 p. m., Thursday, April 30.

SO DECEPTIVE

Many Jacksonville People Fail to Realize the Seriousness. Backache is so deceptive. It comes and goes—keeps you guessing. Learn the cause—then cure it. Possibly it's weak kidneys. That's why Doan's Kidney Pills are so effective. They're especially for weak or disordered kidneys.

Here's a Jacksonville case. Mrs. O. Lansing, 802 N. Diamond street, Jacksonville, Ill., says: "I always praise Doan's Kidney Pills when I hear of anyone having kidney complaint. Nothing ever did my back as much good as Doan's Kidney Pills. I took them when I was almost laid up and in a short time they put me on my feet again. I have usually procured Doan's Kidney Pills at Armstrong's Drug Store and I think so highly of them that I am willing to have my statement published."

For sale by all dealers. Price 50 cents. Foster-McBain Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.—adv.

GOOD RESULTS FOLLOW USE OF FOLEY KIDNEY PILLS

A lame back, sore kidneys and sleep-disturbing bladder weaknesses warn you that your kidneys need help—need to be toned up, strengthened and their normal action restored. Bladder weakness causes much bother and distress. Women especially suffer from this annoyance. Just a trial of Foley Kidney Pills will convince you of their practical value, for results show as soon as you begin their use. They act directly on the kidney and bladder, and are a health giving and health maintaining medicine, valuable in all disorders arising from weak, inactive and sluggish kidneys. They contain no habit forming drugs and are a pure medicine. In 50c and \$1.00 sizes. N. B. Foley Cathartic Tablets (containing blue flag) are a wholesome and thoroughly cleansing cathartic. Very easy to take, no griping or nausea. 25c per bottle. Act in perfect harmony with Foley Kidney Pills. For sale by City Drug Co., J. A. Obeymeyer, prop.—adv.

About Rheumatism. People are learning that it is only a waste of time and money to take medicine internally for chronic and muscular rheumatism, and about 99 out of a 100 cases are one or the other of these varieties. All that is really necessary to afford relief is to apply Chamberlain's Liniment freely. Mrs. H. Miller, Lozanoport, Ind., writes: "I have used Chamberlain's Liniment for rheumatism and it always gives relief." For all dealers.—adv.

STOMACH SUFFERERS!

SOME RECOLLECTIONS OF THE GREAT REBELLION

(By Capt J. M. Swales.)

(Continued from Sunday.)

March to the Sea.

The desperate and last battle of the Atlanta campaign was fought at Jonesboro, some 20 miles south of Atlanta, September 1, and Hood found himself whipped to a standstill. Instead of retreating further south, he headed for the north, expecting that Sherman would follow him and thus compel him to lose all he had gained during the four months it had taken him to reach Atlanta, the great prize which had cost so many lives to win. Most of Sherman's army did follow Hood as far north as Gaylesville, Ala., after which he returned to Atlanta and began preparations for the march to the sea. The 4th and 23d corps were sent to Nashville to reinforce Thomas, who was organizing a force to take care of Hood in the event he should attack that place on his way to invade the north. In the meantime Sherman was resting and recuperating his army and preparing to crown his efforts with the greatest of his wonderful achievements since the opening of his campaign in May. He had a fraction over 60,000 bronzed veterans in and around Atlanta which he organized into two wings, the right under G. O. Howard, and the left under H. W. Stoughton, the wings forming the Army of Georgia. There were 60 pieces of artillery, one piece to each 1,000 men. In addition to these there was a division of cavalry under command of Gen. Judson Kilpatrick, all under the command of Major General William T. Sherman, who proposed, and did, "make Georgia howl," and realize that "war is hell."

Before the march began all the sick and unfit were sent to the rear and when the reorganization was complete he had the finest army ever organized on this continent, invincible and irresistible and one which was to leave its imprint on the pages of enduring history and win fadefless glory for all time. The officers had confidence in the men and the men the utmost faith in those who were to lead them in the crowning achievement of the illustrious march to the sea, and through the Carolinas and on to Washington, thus putting an everlasting quietus to the Jeff Davis dynasty and reunifying the nation, which for nearly four years had been badly torn asunder. By the 13th of November all wires had been cut and destroyed and all railroads leading north had been completely wrecked and ruined almost beyond repair. The city of Atlanta was a mass of smoldering ruins and great clouds of smoke hung like a pall over all. The scene was the very quintessence of devastation—the very abomination of desolation. Black ruin was in evidence everywhere and the erstwhile proud city of Atlanta was as if smitten by the plague of Grim Visaged War, in all its frightful heinousness, and the hand of the destroyer seemed stamped on every hill and valley for miles and miles in all directions. War had indeed and in truth waged its wild desolation in the very heart of poor old Georgia. Surely the destruction of the Gate City of the south fully and fearfully defined the three words uttered by Sherman when he said, "War is hell." In front and flank and rear the earth was criss-crossed with long lines of entrenchments and honeycombed with rifle pits. Over this vast blood soaked area buzzards and other carrion-seeking fowls soared above the desolate environment of the doomed city. It was a veritable carnival of ghastly ruin and all the elements that follow in the train of a cruel, wasting conflict, brought on by dealers in human flesh and blood, and for every lash given the bondsman the wrath of fire and sword had demanded and received an hundred fold in blood. The avenging demon of hate had done its work until there was nothing left but the scarred earth. Such was Atlanta and its surroundings when Sherman started down to the sea, "Sixty miles in latitude, three hundred to the main."

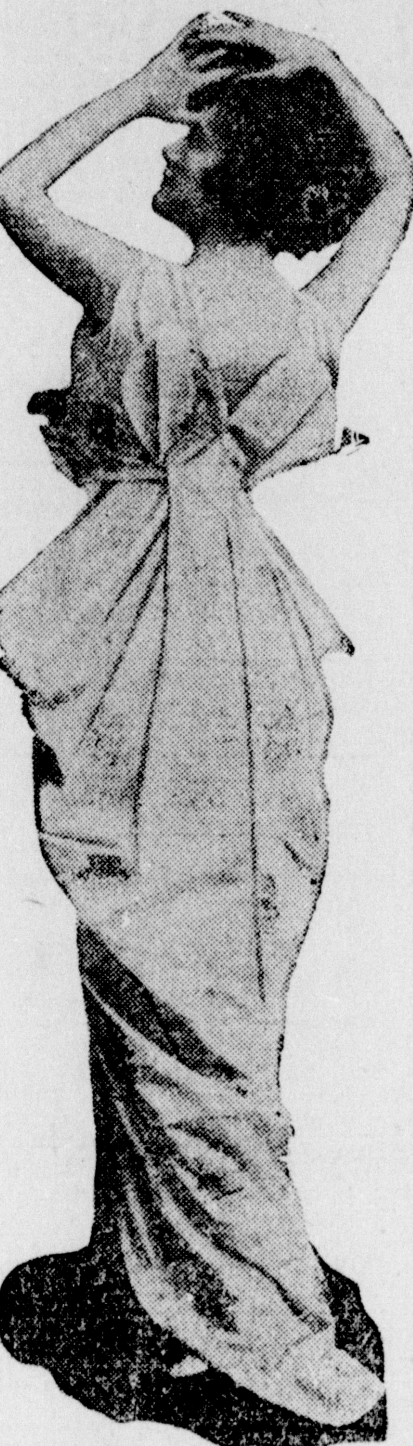

The two mighty columns moved in parallel lines and within easy supporting distance. The average day's march was from 15 to 20 miles, and so the two great blue armies swung along at an easy gait, camping and foraging as they marched. It was like a grand parade over the plains of southern Georgia, which was entirely dissimilar to the northern part of the state. The first town of importance along the route was Milledgeville, the capital of the state. The legislature was in session a day or two before the advance guard reached the gates of the capital, but it is needless to say that there was a fine die journeyment of that august body. The blast of Sherman's bugles was a notice to adjourn, and they went promptly, old Joe Brown, the "war governor," leading in the rapid flight of the "die in the last ditch" of goober eating patriots. Brown was a "blood to the bride" warrior—with his mouth. The blue army took possession of the capitol and while there held several mock sessions of the legislature, which created no end of amusement. They elected a speaker, president of the senate, as the lieutenant governor had hiked with old Joe Brown, appointed committees and enacted all sorts of laws for the good (?) of the commonwealth of Georgia and did many other legislative stunts that would hardly bear the scrutiny of the supreme court. Milledgeville is about 100 miles south of Atlanta and at that time was quite a thriving city, aside from being the state capital. After the blue army had passed on "War Governor" Brown returned to his mansion and emitted a few pronouncements which were anything but complimentary to the "vandals" who had invaded the sacred soil of Georgia, more especially that in and around the capital. This gubernatorial swashbuckler was a common disturber and a four-flusher

both in war and politics. First, last and most of the balance of the time, he was strictly for Joe Brown, and the confederacy he blowed. At one time he had created a rebellion within a rebellion by advocating the secession of Georgia and North Carolina and establishing a confederacy within a confederacy, but the scheme died a-bornin'. He hated Jeff Davis fully as much as his satanic majesty despises holy water, and the feeling was as heartily reciprocated on the part of J. Davis, head center of the slaveocracy, who was then sojourning in Richmond, Va. After leaving Milledgeville the next object of interest was Millen, 100 miles south and about two-thirds of the distance from Atlanta to Savannah. There was a prison stockade at this place in which were (or had been) confined several thousand Union prisoners, and the object was to release them, but before the blue army arrived they were removed to other and more remote points, many of them being shipped to Florence, S. C., and others back to Andersonville, from whence they had been sent in September in anticipation of Sherman's advance in that direction soon after the fall of Atlanta.

From Millen the columns moved in a direct line toward Savannah, on the river of that name, and only about 15 miles from the coast. In order to open communication with our fleet it became necessary to storm Fort McAllister, and the Ogeechee river, General Hazen's brigade of the 15th corps was selected to perform the operation, which it did neatly and well, though not without considerable loss of life, mainly from torpedoes over which the charging columns had to pass. General Hazen was a fine officer and one of the best fighters in the M. D. M. and as gallant a brigadier as ever drew a blade. He was the first husband of Mrs. Admiral George Dorey, who, with the admiral, visited Jacksonville during the state encampment of the G. A. R. in 1900. After the fall of Fort McAllister the capture of Savannah became an easy matter and on Christmas day General Sherman presented the captured city to President Lincoln as a Christmas gift, all of which was thankfully received and duly appreciated by the rail splitter. Savannah is a quaint old city and was in existence before the Revolutionary war. It is noted for its wide streets, palmetto and live oak trees covered with grey moss, which hang from the limbs in great abundance. There are many monuments in the parks and boulevards, principal among which is one erected to the memory of Count Pulaski, who lost his life while fighting for the colonies during the war of Independence. The city is about 40 feet above sea level, the country all around being rice fields, sand, salt marshes, swamps and plenty of alligators. That is, such was the case when I was there 49 years ago next May, after a sojourn of nine months with Captain Wirz at Andersonville.

Savannah is about 15 miles from the Atlantic coast and the river is navigable up to and beyond Augusta, which is about 200 miles by water and about 70 as the crow would fly, in case he should want to go that way. It is one of the crookedest streams on the continent. Just across the Savannah river is the state of South Carolina, which was the principal cause of all the trouble then going on between the states, that commonwealth having, in convention assembled, adopted the ordinance of secession as early as December 20, 1860. The first shot at Old Glory was fired from a battery on the soil of that state. Its citizens were just itching for war to the knife and knife to the hilt. They were soon to get plenty of war and plenty of the hilt, for 60,000 men in blue were about to enter and do a few things in the way of disturbing the peace and quiet (?) of that nest of traitors, palmettos and alligators. After quitting Savannah Sherman decided to go to Pocotaligo, S. C., and there get ready to repeat what he had already done to poor old Georgia, that is to say, make the warlike people howl till they had plenty, even to a surfeit of the red article they had for so many years been hankering after and yearning for. The boys used to call the place "Poke-till-they-go," and there was plenty of poking all through South Carolina, plenty of fire and sword and desolation from Pocotaligo to Columbia, the capital of the pestiferous, fire-eating state of boasted chivalry and "blood to the bride" warriors whose proud boast was that one southerner could whip five Yankees every day in the week and six on Sunday. These fire brands and gore-drinking, slave-holding devils were to get their fill of blood-letting till their gory appetites were satiated to the limit. They got some of it at Verochboro, more at Cheraw, and plenty of it at Columbia, where the lurid flames of war painted hell on the clouds over the burning city. They saw plenty of desolation in the wake of the invincible battalions that had swept through Georgia as a besom of destruction. And South Carolina, the cradle of treason, was getting her share of the real stuff. Every man in blue who trod the soil of that commonwealth felt it his duty and privilege to wage to the limit all that devastating war meant. And there was plenty of reason and provocation for this intense, passionate hatred, for it was this state that had precipitated the crime of the ages, which resulted in the awful sacrifice of 400,000 loyal lives, filled our cities, villages and hamlets with widows and orphans, maimed and crippled soldiers and placed the nation under a pall of gloom, sorrow and hopeless despair, beyond what the world has ever known or dreamed of. Terrible vengeance was the watchword and destruction their shibboleth, and they were visited on that state to the limit. Black ruin

left its awful imprint wherever the blue battalions marched and fought and won, through swamps, bayous, and across rivers, swollen by incessant rains of that region. On and on from city to city, moved the avenging hosts in blue. South Carolina was reaping what it had sown. It had sown the wind of treason and rebellion and was reaping the cyclones of desolation. Grass was growing in the streets of Charleston and its buildings were a mass of wreck and almost total destruction. The first shot fired at Sumter from the walls of that city had been answered fully and the blight of war's desolation rested on the doomed city. Of war Charleston had enough to last her to the end of time. Fertile plantations were laid waste. Thousands of her "chivalric" sons had perished for their sins, and the sins of political fire eaters who said the Lincoln hirelings and the mud sills of the south would not fight. Rich slave owners were made penniless. The Hamptons, the Routages and the Rhettts, the Yanceys and the Calhouns and other aristocrats of that state were as poor as the common clay eaters and snuff dippers of the hill country, and when the bloody tragedy closed there were none to whom reverence, the red wave had overwhelmed them and placed master and slave and clay eater and snuff dipper on a common level. All this and more was visited on that pestiferous class who had forced the nation to defend itself against armed treason, sedition and rebellion. Yes, South Carolina was getting plenty, and plenty more was in store for her during the period of reconstruction which followed the roundup at Appomattox. This same state had been a disturbing element in the Union since the days of Calhoun, who, while Andrew Jackson was president, threatened secession and nullification, but Andy told him high as Haman. And Calhoun was to be good or he would hang him as were being made by Stanton against Sherman, who, he said, would allow Jeff Davis to escape for some of the gold he was said to have had with him down in Georgia and who was then endeavoring to get out of the country. Stanton went so far as to charge Sherman with being a traitor to his country, and a lot more to the same effect. These insults never yielded a particle in his hatred toward the secretary of war. These insults resulted in the public snub given by Sherman to Stanton on the reviewing stand, May 24, 1863, in the presence of Johnson and his cabinet, Grant and his staff and a vast number of other military and civic dignitaries.

ROUMANIAN RULER IS 75. Bucharest, April 20.—Felicous messages from many of the sovereigns of Europe were received by King Charles today on the occasion of the 75th anniversary of his birth. The king was born April 20, 1839, and belongs to the nonreigning branch of the Hohenzollerns. He was elected to the throne of Roumania in 1866, at the age of 27 years. Three years later he married Princess Elizabeth, daughter of the late Prince Hermann of Wied, who, under the name of "Carmen Sylva," has distinguished herself as a writer of poetry and prose.

Let us tell you how to enjoy your meals so that even the heartiest dinner will set well on your stomach, cause no unpleasant or disagreeable after effects.

There is no hard work; no need of a rigid diet list; no disagreeable medicine; instead, eat what you like and use Mi-o-na Tablets. They are not only a digestive and antacid giving prompt and effective relief but a specific for disordered stomachs. Do not endure indigestion another day. Mi-o-na surely and safely strengthens the digestive organs, soothes the irritated membrane, and increases the flow of gastric juices so that the stomach can care for the food as nature intended.

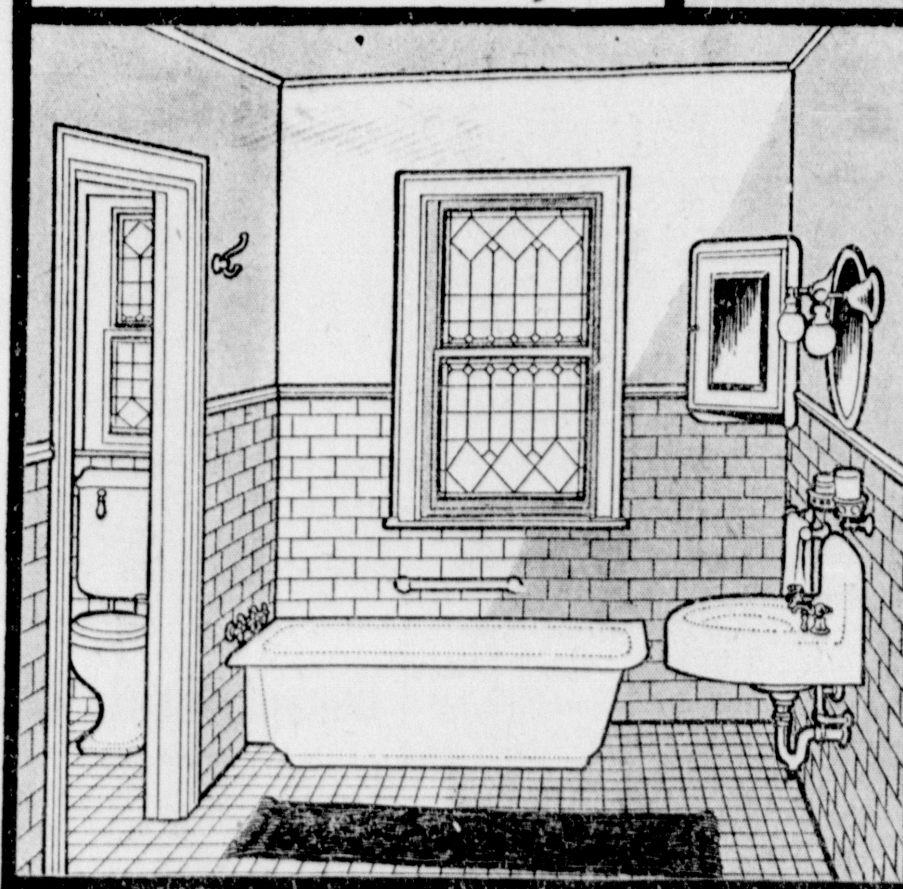

It is needless to have a bad stomach or suffer after-eating misery. Get from any druggist a fifty cent box of Mi-o-na today—take two or three tablets at the first sign of distress. Keep it in the house—carry it when traveling—it's at all times the dependable stomach remedy.—adv.

THE HIGH COST FALLACY

Some people have a mistaken impression regarding plumbing. They believe there are two kinds—the cheap job of seconds with skimpy workmanship and the unnecessarily expensive quality installation.

Such reasoning is entirely without the bounds of fact. When building rest assured that your plumbing equipment can be what it should be—satisfactory in design, durability and price.

This we wish to demonstrate by going over your plans with you and showing the wide range of suitable "Standard" guaranteed plumbing fixtures which with our charge for installation will satisfy you as to quality and reasonableness of price.

The Ayers Safe Deposit Vault

A Safe Deposit Box is not a luxury, but a necessity to the owner of stocks, bonds, deeds, mortgages, insurance policies and other valuable papers.

Anxiety about jewelry and silveware not in use is dispelled when they are in a Safe Deposit Vault.

It may be of interest to know that in the construction of the vault there are more than 380,000 pounds of steel and the door itself weighs 14 tons.

To rent a Safe Deposit Box in this vault costs less than one cent a day.

Private rooms for the examination of papers are provided for the convenience of patrons.

THIRTY TOWNS WILL
VOTE ON LIQUOR QUESTION

Over Two Hundred Saloons Will Figure in the Election Today.—Contests in Four Cities Where "Wets" Will Try to Reirrigate.

Springfield, April 20.—Whether "wets" or "drys" control the next Illinois legislature may be one of the side questions decided in local option elections to be held today in thirty cities and villages. The possibility of four more counties being added to the present "dry" territory is agitating the saloon advocates.

At the election of April 7 twenty-two counties were added to the then thirty in which saloons are conspicuous by their absence. This total of fifty-two is a majority of the 102 counties of the state. An addition of four more counties presents a wearisome prospect to the liquor crowd.

Two hundred and thirty-six saloons are involved in twenty-two villages and cities which will test the "dry" issue in the coming election. Then there will be contests in four cities and villages now dry with the "wets" expect victory.

In five other cities and villages in townships which went "dry" on April 7 second elections will be held to determine the sentiment within the boundaries of the little municipalities.

Following are the twenty-two towns where the "drys" are fighting to eliminate the saloons:

Antioch, Athens, Arenzville, Carlyle, Deerfield, Divernon, Danville, Edwardsville, East Pekin, Effingham, Henry, Herscher, Kampsville, Mendota, Manteno, Mound City, Mounds, Nashville, Pocahtantas, Worden.

These five places are in townships which went wet at the recent election, but will vote separately on the question: Algonquin, Cabery, Milan, Deddick, West Frankfort.

Will Try to Bring Saloons Back. The "wets" will attempt to reirrigate these four towns now dry: De Soto, Irvington, Menard, Pulaski.

More than 1000 saloons were voted out in the early April elections. The Anti-Saloon league asserts this total will be materially increased.

The Danville election is attracting the greatest interest. That city, the home of "Uncle Joe" Cannon, has seventy-six saloons. The "wets" are making a strong bid to prevent "dry" encroachment there and are thoroughly organized. The "drys" concede the odds apparently are against them in Danville, but are waging a stiff campaign.

Edwardsville, in Madison county, with twenty-nine saloons, and Worden, in the same county, with four saloons, has aroused particular interest in the southern part of the state. Edwardsville, while largely a residential city, has several large manufacturing plants. It is the home of Charles Boeschstein, democratic national committeeman.

Other Warm Contests. Other hot contests are expected in Mendota, in La Salle county, with four saloons; Effingham, with twelve; East Pekin, eleven; Henry, ten; Nashville, eight; Carlyle, seven; Manteno, six; Divernon, four; Antioch, four; Deerfield, two; Kampsville, two; Herscher, two, and Henry, one.

In order to swing Bond county into the "dry" list it will be necessary to eliminate the four saloons in Pocahtantas in Burgess township. This township went wet on April 7, but the "drys", under the law, have a second try at the village of Pocahtantas.

To drive the "wets" entirely from Cass county the "drys" must win the Beardstown and Arenzville elections, while to make Menard county barren of oases Athens' three saloons must be eradicated. Whether Pulaski county becomes "dry" territory depends on the results in Mounds and Mound City. There are thirteen saloons in the two villages.

The "drys" have the advantage irrespective of the result in some of the villages. For instance, in the five places within townships previously voted "dry", saloons may not operate legally even if the municipalities should vote "wet". The law, which prohibits "wet" villages in "dry" townships precludes this.

LUDLOW ISOLATED
AFTER ALL DAY BATTLE

ARMED STRIKERS AND STATE TROOPS ENGAGE IN SERIOUS CLASH

Report That Twenty Strikers Are Wounded and Three Killed is Denied at Union Headquarters.—Military Camp Reports Loss of One Soldier and Two Others Badly Wounded.

Trinidad, Colo., April 20.—A fourteen hour battle between striking coal miners and members of the Colorado National Guard in the Ludlow district today culminated late tonight in the killing of Louis Tikas, leader of the Greek strikers and the destruction of the Ludlow tent colony by fire. Reports received here late tonight place the dead at thirteen including 11 strikers, one soldier and one non-combatant.

Firing again broke out east of Ludlow shortly before midnight but continued for only a few moments. No accurate estimate upon the exact number of dead and wounded in today's battle can be secured until tomorrow or until after the fighting has ceased.

Union officials discredit the report of the shooting of Louis Tikas. Communication with the Ludlow colony is completely cut off they say.

Trinidad, Colo., April 20.—After an all day battle between armed strikers and small detachments of state troops the Ludlow district early tonight is practically isolated with the exact toll of the day's battle still in doubt. Reports received shortly before six o'clock state that heavy firing still continued.

All telephone wires are down and telegraphic service is limited to one railroad wire. A report from the military camp at Ludlow says that one soldier is dead and two are wounded, one fatally. Twenty strikers are reported wounded and at least three are said to have been killed but this is denied at union headquarters.

The military force totals about 100 and fully 400 armed strikers are said to be in the hills at the foot of Hastings and Berwind canons and along the Colorado & Southeastern tracks.

An effort to send recruits from Trinidad was delayed this afternoon by the refusal of the train crew to take out the train. The master mechanic, dispatcher and superintendent finally took out the train. The entire district is in a high state of excitement.

Citizens are arming themselves in Trinidad.

Battle Rages as Night Falls. Darkness fell with the battle raging fiercer than at anytime during the day. A machine gun brought by the reinforcements has been planted near the Ludlow station and is sweeping the tents of the strikers colony. Several tents are reported on fire.

Draw Tentative Pippal Today. Columbus, O., April 20.—Formalities of receiving credentials engaged the convention of Ohio coal miners here today and the conference adjourned to tomorrow morning within an hour after it convened. Siberia's Growth. Omsk, Siberia, has become the outfitting point for an extraordinary migration, estimated at 2,000,000 people annually, which pours into the country bordering on Mongolia. Nothing in Europe or Asia has ever been quite so like the springing up of the great cities of the American middle west as is the growth today of new towns in Siberia. Except that the tide is moving east instead of west, the movement has many parallels to the wonderful migration which won the west for America. There are, however, two striking differences. The first is that the pioneering is comparatively luxurious compared to the American movement, while the natives instead of being swept aside are being absorbed by the ten day journey up the Irtysh river from Omsk into the promised land is made by steamboats which are the last word in the luxury and convenience of river traffic.—Chicago News.

**MRS. HELEN BROWN READ
HEARD IN SUPERB CONCERT**

Delights Large Audience By Her Beautiful Art.—Musical Given as Benefit For Passavant Memorial Hospital.

Mrs. Helen Brown Read was greeted by a large audience of Jacksonville music lovers Monday night, on the occasion of her initial appearance, after several months of unusual success abroad in Grand Opera work. It was a pleasure to hear her again; to feel the inspiration of her song; to observe how her voice has grown in volume and her beautiful art advanced. Surely Mrs. Read could not have asked for a more enthusiastic audience than filled the Opera House last night; and her appearance was a genuine triumph. The concert was given as a benefit for Passavant hospital.

The program was one of especially high standard and gave the singer a wonderful opportunity to show the character of her voice. The first three divisions were operatic numbers and in these selections Mrs. Read found her true self. Opening with the "Santuzza Aria" by Pietro Mascagni she followed with that highly dramatic number "Un Bel Di Vedremo" by Puccini from "Madame Butterfly". The interpretation of the selection was unusually brilliant and given with great dramatic fervor. The "Ich trage meine Minne" by Strauss proved a delightful number and the "Song of India" by Rimsky-Korsakow, unusual for its colorature nature and fine atmosphere, met with such an applause that it had to be repeated. The Schubert numbers were executed in a fine style. Perhaps of all the operatic selections Mrs. Read impressed her audience most by the "Depuis le jour" from the opera "Louise" by Gustave Charpentier. Its extraordinary demands were met by Mrs. Read with a facility of execution, intonation and phrasing that left no doubt in the minds of the people of the singer's artistic temperament and her power of interpretation.

The English songs proved a great delight to the audience. She first gave two numbers from John Alden Carpenter "When I bring you colored toys" and "The Sleep that Flits O'er Baby's Eyes." They are beautiful in color and were so charmingly given that the audience would gladly have heard them again. The program closed with two numbers by Herbert Oliver, the last one being "Down Vaux Hall Way". It was given so brilliantly that Mrs. Read was forced to sing it a second time. For encores she also gave "Dich Theure Halle" by Tannhauser, and "A Perfect Day" by Carrie Jacobs Bond. Few in the audience realized that Mrs. Read had been suffering from a bad cold and for this reason her efforts were worthy of added praise.

Mrs. Helen Ayers Bullard was the accompanist of the evening and in her the singer found a wonderful support and sympathy which added strength to the evening of song.

The program follows:
Pietro Mascagni—Santuzza Aria (Cavalleria Rusticana).
Puccini—Un bel di Vedremo (Madame Butterfly).
Richard Strauss—Ich Trage Meine Minne, and Heimliche Auforderung.
Rimsky-Korsakow—A Song of India.
Schubert—Frühlingsglaube, and Die Junge Nonne.
Gustave Charpentier—Depuis le Jour (Opera "Louise").

John Alden Carpenter—When I Bring You Colored Toys, and The Sleep That Flits O'er Baby's Eyes.
Cowen—At the Mid Hour of Night.
Old English—My Lovely Celia.
Kingston Stewart—The Soul.
Roger Quilter—A Land of Silence and The Blackbird.
Herbert Oliver—The Nightingales of Lincoln's Inn, and Down Vaux Hall Way (Songs of Old London).

E. E. Wells and G. S. Rogerson are candidates for election to the Board of Education. Their work on the board has been commendable and they should receive the majority vote today.

**LOCAL PARCEL POST MAIL
HANDLED FOR THIRTEEN DAYS**
Record Kept For First Part of April Shows Most Interesting Figures and Large Amount of Business Done.

According to a ruling of the post office at the local post office has been weighed and counted during the first thirteen days in April.

The total number of pieces despatched was 12,294, with a weight of 5,680 pounds, the postage amounting to \$287.12. Total number of pieces received and delivered, 6,306; total received and delivered 18,600. The total weight of all out going mail was 17,605 of all incoming mail 31,675 pounds, a total of mail handled, 49,280 pounds.

The average number of pieces to a pound is 10, making 492,800 pieces handled or at the rate of over 11,000,000 pieces handled yearly.

Figured out in pieces and minutes each rural carrier is delivering about one piece of mail each minute of the time he is supposed to work and a city carrier delivers about two pieces per minute for the total eight hours he is allowed to work. There are nine clerks used in the distribution, which would cause them to handle 8 1/4 pieces per minute of the 8 hours of working time besides other duties.

In the election today, if you favor the general law vote "Yes"; if you favor the present charter vote "No."

**RUMOR OF DEATH BY AUTO
ACCIDENT WAS UNFOUNDED**

Story Current Last Night That Frank Wilson Had Been Killed on Road Near Oak Lawn Retreat.

On account of an automobile accident, which Frank Wilson met with Monday afternoon, at 4 o'clock, the story became current during the evening that he had met death by being hurled from the machine, suffering a broken neck. Inquiry from the Wilson home on East State, elicited the information that he was safe and sound.

At the time of the accident, Mr. and Mrs. Wilson, and Miss Flossie Kellogg were going up the slight hill, close to Oak Lawn Sanatorium, when the spindle of the front right wheel broke, letting the car down. Mr. Wilson had the machine under good control and the ground was ploughed up for only a short distance. None of the occupants were thrown out and all escaped injury. If the car had been going at a good rate of speed, it would have been miraculous if someone had not been killed. How widely the untrue story became current can be estimated from the large number of calls both by phone and in person which came to the Journal office and to the Wilson residence.

SOCIAL EVENTS.

A Wellesley luncheon was given in Springfield Monday by Mrs. Pascal Hatch. Twenty-five Wellesley women from Springfield, Decatur, Taylorville, Peoria, Virden and Jacksonville were in attendance and President Pendleton of Wellesley College was the guest of honor. Those from Jacksonville who attended were Miss Mothershead, dean of the Illinois Woman's College; Dr. Grace Dewey, and Misses Mary and Alice Wadsworth.

Following the concert last night, a delightful informal reception and supper was given to a few friends by Mrs. F. J. Waddell, at her home in honor of Mrs. Helen Brown Read and Mrs. Helen Ayers Bullard. The Peacock Inn catered.

Monday evening, Mr. and Mrs. James Lawless most pleasantly entertained at their beautiful new home near Murrayville the members of the M. N. club and a few intimate friends. After a few remarks by the President Nicholas Conlon, the guests proceeded to enjoy themselves. Various games and music caused the evening to pass all too rapidly for the merry-makers.

Misses Margaret Flynn, Nellie and Kathryn Hagan favored the guests with vocal and instrumental music. In the guessing contests prizes were awarded to B. Farrell, Sallie Doolin, John Koyn, and P. J. McBride. Delicious refreshments terminated a happy evening.

In the election today, if you favor the general law vote "Yes"; if you favor the present charter vote "No."
